2022-2023 School Accountability Report Card
(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Mission Statement: CORE Butte, Inc, in order to foster the educational pursuits of our TK-12 students in rural Northern California, utilizes the independent study/personalized learning approach: supporting development through choice of curriculum aligned with state standards, engaging parents along with students in learning and offering classes at our centers and within the community with the goal that students will demonstrate measurable academic growth in addition to the social skills necessary for their future success.

Vision: Every person has the ability to learn and succeed given the right tools and supports.

About Our School: CORE Butte offers an alternative education model that requires a high amount of parent/guardian participation. Success in independent study requires motivation and a strong commitment on the part of the student and his or her parents/guardians/caregivers. It also requires sufficient academic preparation. CORE Butte requires a commitment from both students and parents to the goals and vision of this charter.

CORE is a public Personalized Learning charter school, supporting families who wish to work more closely with their children through the personalized learning approach. A personalized educational program is designed for each student. There is no cost to attend our school.

Students: Families are assigned to a credentialed teacher who provides constant direction for the parent/student/teacher team. This credentialed teacher assists the parent in the selection of curriculum from a vast array of state standards aligned texts, appropriate for each child's level in each subject area, and then guides the parent/guardian throughout the year. Parent/guardians take the role of the primary educator of their own child. It is a challenging, exciting, rewarding task.

Our Educational Programs: CORE Butte offers support classes for our Personalized Learning Program.

TK-8 Home Study Program - The roots of our program reside in the home study model, with TK-8 located in Chico on Notre Dame Boulevard. These programs offer an hour or more per week support for some elective and academic subjects, while the parents provide the daily academic instruction for all subjects. Personalized Learning Teachers work with the parents to select state standards aligned curriculum, assignments, and assessments. Work is completed by the student every academic day of the school year, under the supervision of the parent. Field trips, tutoring, and classes in the community are coordinated by the parent and teacher to accommodate the student's best learning schedule. Students have flexible access to these academic supports.

CORE Butte High School Program (CBHS) - CBHS (CORE Butte High School) is also located on the Notre Dame Boulevard campus separate from the elementary school. CBHS was designed as a hybrid "college" model school for grades 9-12. An independent home study model is also offered through CBHS. The college model program allows students to attend three or more classes per week on site. This model provides academic instruction delivered by education professionals two or three days per week. The parent is still very involved in supervising and correcting homework, participating in meetings regularly with the teacher and student, and becoming engaged with the overall high school program. CBHS also provides a small high school culture for students that is safe, promotes responsibility, and offers many opportunities. Our sports program includes volleyball, basketball, soccer, softball, track and golf. Other sports are planned for the future. The school has several career technical education pathways and an active FFA and ASB that sponsor community events, dances and a prom. The program is designed to offer both flexibility and stability.

Personalizing Education for Student Success in the 21st Century: The school provides enrichment classes at our school sites. Elementary students may choose classes ranging from academic to enrichment. Some classes encourage advanced students to explore ideas and events beyond the regular curriculum. High school students are offered a number of academic support and enrichment classes. CTE, junior college concurrent enrollment, and community instruction are all attractive components of

2023-24 School Description and Mission Statement

our high school program. All students are given opportunities to extend learning through parents' own creativity and exploration. The program affords an enormous amount of freedom to places and events that are interesting and valuable to the student, including field trips assemblies, and school fairs. In addition, CORE works with parents to receive supplemental instruction from approved vendors in the community.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. School Facility Conditions and Planned Improvements

CORE Butte takes great pride in ensuring that all school facilities are clean, safe, and functional. The school employs a Senior Custodian/Maintenance Technician that regularly monitors facility maintenance. In addition, the Butte County Office of Education conducts an annual onsite inspection reporting results back out to the school via a Facility Inspection Tool (FIT) Report. The most recent FIT inspection was completed during the fall of 2023 with results indicating that both the TK-8 facility and the CBHS facility are in good repair. The results of these inspections are available in the school administrative offices.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 Career Technical Education Programs

In 2011-2012 CORE began its first CTE program, an Agriculture Academy, using resources from Future Farmers of America. Since that time, CORE has applied for and participated in numerous CTE grant programs allowing the school to expand its career technical education offerings. Since the inception of CORE's CTE program, the school's staff have developed pathway structures for numerous additional CTE pathways including:

Patient Care
Agri Business
Animal Science
Floral Design
Interpreting for the Deaf
Software & Systems Development
Information Support & Services
Child Development

Participation in these pathways has increased each year as the pathways have grown to include competitions and internships. Most pathway courses are A-G approved and are aligned so that students are concurrently completing the requirements for graduation and where applicable, certification in CTE.

Outcomes are measured by participation rates, graduate completers, and GPA. All students are encouraged to attend Butte Community College while concurrently enrolled in CORE. Butte College offers an array of CTE courses and gives our students access to alternative industrial education classes that they wouldn't otherwise have access to.

The school's CTE coordinator, Julie Emmons, is on staff and serves as the CTE Advisor.

Fiscal Year 2022-23 Types of Services Funded

Please review the school's Local Continuity and Attendance Plan for a robust synopsis of programs and services the school funds to support and assist students.

Special Education (State and Federal): CORE Butte supports and assists all students identified with learning disabilities. Approximately 14.7 % of the school population was identified for Special Education Services in the 2021-2022 school year including Speech and Language, Individualized Instruction, Adaptive PE, Hearing and Vision Impaired. This percentage continues to grow annually to accommodate the needs of the school's community.

Lottery, Restricted: CORE provides state adopted curriculum and support materials for every student in every subject area.

Title I and II: CORE utilizes funding to support instruction, provide supplemental activities that strengthen the quality and effectiveness of teachers, principals, and other school leaders.

ESSER II and III Funding: The Corona Aid, Relief, and Economic Security (CARES) Act was provided to CORE through ESSER I, II and III to address the impact of Covid19 on schools. ESSER funds were utilized and provided mental health services and supports, purchased supplies to sanitize and clean the facilities, purchased education technology, as well as improvements to enable operation of schools to reduce risk of virus transmission. All ESSER funds were used to prevent, prepare for, or respond to the COVID-19 pandemic.

Career Technical Education Incentive Grant: Grant supported teachers' salaries for instruction in CTE pathway classes. CORE provided textbooks and instructional materials for CTE courses as well as professional development and certifications.

Agricultural Grant: Funds provided to CORE to improve the quality of agricultural vocational education programs. CORE provided instructional materials, memberships, and professional development to our staff.

Expanded Learning Opportunities Grant: Funds utilized to increase instructional learning time in addition to the minimum number of instructional days and minutes that are required for each school year. CORE was able to provide summer school over the course of two summer's to increase services provided to pupils based on their learning needs.

ARP HCY Homeless: American Rescue Plan Act of 2021 (ARP) Homeless funds were provided to supply store cards/prepaid debit cards to students experiencing homelessness to purchase materials necessary for students to participate in school activities, including gas cards and bus passes for transportation to school.

Medi-Cal Billing: Funds generated from services that we are already offering for pupils to support our school nurse who coordinates specialized healthcare services. This coordination includes care plans, staff training, and documentation. The school nurse serves as the bridge between the education world and the medical world by communicating with families, medical professionals, and staff/teachers to ensure students are safe on campus.

Educator Effectiveness: Funds used to support the professional learning for certificated teachers, administrators, paraprofessional educators, and certificated staff.

A - G Completion Grant: Additional counseling and guidance staff utilized to provide information to foster youth, low-income students, and English learners to help increase the number of students who are on track to complete A-G coursework. Increase guidance around concurrent enrollment to help students meet A-G requirements through completing community college coursework. Professional development for staff to improve student guidance and support to increase A-G completion rate. Additional tutoring and support in Mathematics will be offered to support students completing the mathematics A-G requirement.

Arts Music Instructional Grant: Funds utilized to support arts and music education programs as well as operational costs including retirement costs.

Learning Recovery Emergency Block Grant: Funds used to support academic learning recovery including accelerating progress to close learning gaps through the enhancement of learning supports, which include tutoring.
