2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

School Description:

The student population at Durham High School reflects a predominantly middle class community, ranging from lower to upper middle class, and contains some third and fourth generation families. Durham can be described as a rural and agricultural community with the primary crops being almonds, walnuts, and rice. An increasing number of families commute to jobs in the nearby communities of Chico and Oroville. There are three significant subgroups represented on the DHS campus: socio-economically disadvantaged, white, and Hispanic.

Durham High School takes full advantage of its small size. The modest levels of enrollment insure that teachers are familiar with every student. This close-knit campus community allows relationships between faculty and students that are significant enough to quickly determine changes in academics or behavior and make meaningful strides to help, be that through conversation or more substantial interventions. There is a genuine concern among the staff for our entire student body. In general, students follow the lead of the staff and help each other.

Durham High provides a variety of options for students, though our size limits that to some degree. Despite that challenge, we still offer rigorous, meaningful programs in Music, Manufacturing, Welding, Agriculture, Recording Arts and Art. It's small enough that a majority of our students are able to participate in school athletics.

We have challenging college-level and college-preparatory courses of study as we have dual credit courses with Butte College and Southern Oregon University. These college classes include English for Grades 11 and 12, History grades 11 and 12, Public Speaking grades 12, Pre Calculus and Statistics and Spanish for Grades 11 and 12. In addition we have a number of students each year that attain the Seal of Biliteracy. Our Special Education Program is staffed with highly trained and

2023-24 School Description and Mission Statement

dedicated teachers, administrators, and support personnel that genuinely care about their students, and regularly go to great lengths to help them achieve meaningful successes. Our general education teachers work closely with our Special Education department to support students with special needs. Durham High School maintains a positive, supportive and challenging environment for students and is eager to grow and develop to further meet the needs of our ever changing population as we offer more and more CTE Pathway courses.

We strive through our school improvement process to continue to address our achievement gaps for all populations.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered “ineffective” under ESSA)

School Facility Conditions and Planned Improvements

This inspection determines the school facility's good repair status using ratings of good condition, fair condition or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair or poor. One broken pull-station handle - repaired. Some portable dry rot - scheduled for repair in early spring. Light bulb replacement needed in some portables - commenced. HVAC and minor leak in Ag classroom is under repair. Carpet in Library has been replaced.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	47	38	42	45	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2022-23 Career Technical Education Programs

Durham High School is proud to offer the following career technical education (CTE) courses for all of its students:

1. Manufacturing - Intermediate (Welding and Materials Joining)
2. Manufacturing Advanced - Skills USA (articulated with Butte College Welding 20) (Welding and Materials Joining)
3. Manufacturing - Intermediate (Product Innovation and Design) - Solidworks I
4. Manufacturing - Advanced (Product Innovation and Design) - Solidworks II
5. Agriculture - Intermediate Ag Mechanics
6. Agriculture - Advanced Ag Mechanics- Articulated with Butte College
7. Ag Agri-science Intro to Sustainable Agriculture
5. Ag Agri-science Beginning Sustainable Agriculture Ag Biology (Articulating this class with a course at Butte College)
6. Ag Agri-science Advanced (Articulated with a course at Butte College)
7. Ag - Floriculture Intermediate and Advanced - Articulated with Butte College

We are working to be able to offer and provide work-based learning experiences for our students for a variety of CTE programs.

We have advisory committees made up of industry representatives, pathway and core academic teachers, student representative and members for both of our pathway advisories meet at least twice a year (Fall and Spring).

Some of the goals of this grant are to establish pathways for students in specific career areas, increase student participation in CTE areas, earn industry-standards certificates and upgrade the equipment used in the school.

Special-population students have complete access to all CTE courses offered at Durham High School. Instruction is established to meet the needs of individual students as well as a classroom aide as needed.

Students enrolled in the capstone courses of CTE programs will be able to have the opportunity to complete field work and apprentice programs at various local companies within the school day to further their technical education training. The full intent of the CTE program is to provide students with the necessary skills for entry-level positions within their field of choice.

2022-23 Career Technical Education (CTE) Participation

Measure	CTE Program Participation

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement
Parents have been invited to serve on our School Site Council and participate in the development of our Local Control and Accountability Plan (LCAP). Additionally, we work to have a Parent Teacher and Student (PTS) group and an English Learner Advisory Committee (ELAC) where they serve in an advisory capacity. Parents are welcome to attend any school-wide meetings, as well as an open invitation to visit their student's classrooms. We also have a very active Sports, Ag and Music Boosters organizations. Our CTE programs, Ag and Manufacturing also have active Advisory groups, For more information on how to become involved at the school, please contact Chad Thurman, Durham Sports Boosters president at 530.521.6366, McKenna Luce for Ag, (530) 895-4680 or Kyle Long for Manufacturing. (530) 895-4685.

2023-24 School Safety Plan

Visitors must register in the office when visiting our campus. We hold fire drills each semester and a disaster drill annually. Within advisory classrooms, teachers review the school's safety plans. The school's discipline policies are reviewed and updated yearly and are aligned with the California Education Code. The school student handbook is annually approved by the board of trustees.

Our school safety plan will be reviewed, updated and discussed with the school faculty in February 2022.

Fiscal Year 2022-23 Types of Services Funded

Approximately 87 percent of the Durham Unified School District budget was spent for salaries for all staff. The remaining 13 percent of the district budget covers transportation, maintenance, cleaning, instructional materials, utilities, supplies and equipment. School Improvement funds and block grants, when available, are used to fund various school-improvement projects and programs that are consistent with site goals. The federal Carl D. Perkins, the Agriculture Incentive Grant, and the Career and Technical Education Incentive Grant all assist for qualifying programs by providing services. Special education funding is used as determined by Butte County. Durham High School receives "in-kind" services from volunteers in our area that assist with construction and repairs. In March 2020, Durham High received a K12 SWP grant for use in our CTE program and was granted a SSP grant in Recording Arts.

Professional Development

In the 2012-13 school year, DHS instituted a weekly staff collaboration program. Every Monday, school is released one hour early, and staff members utilize the time for school-wide collaboration, site departmental meetings, instructional strategies training, (Data Disaggregation), as well as cross-collaboration with both the middle and elementary schools. We have an organized calendar for these events. This practice is on-going.

In addition to these days, certificated staff is afforded the opportunity to attend staff development away from DHS. Many of these training are through the Butte County Office of Education, but they may include other providers as well. After attending training, staff members share what they learned with their colleagues. Generally these outside trainings are subject level specific.

Our mathematics department attended professional development for the implementation of the integrated mathematics curriculum, as well as instructional strategies taught by CPM Educational Program. Through our CCPT grant we have implemented a Career Choices curriculum, and through the grant we have be able to provide professional development for that staff member.

Both of our CTE instructors attend ongoing professional development through their respective programs. (Agriculture and SkillsUSA)

During the 2018-19 school year our staff underwent training in Professional Learning Communities so our Monday Collaboration is utilized to the fullest.

The emphasis on professional development for the district has been in MAP training, Study Island and now Exact Path through NWEA. These are all computer generated programs that assist teachers and students in understanding their learning, their growth profile and can assist with interventions and a pathway to intervention.

During the 2019-2021 time frame our emphasis has been on -line instructional programs, technology and student engagement in virtual environments. Our teachers have assisted each other and put on workshops for each other during the pandemic. We will begin our WASC process again and are looking to switch our student data base to Aeries. That would require additional professional development. The high school is asking for and planning training in assisting reclassified English speakers in Spanish.

During the 2022-24 school year we at DHS have been working towards improving instruction with BCOE. WE have also been trying to develop an MTSS plan.

This table displays the number of school days dedicated to staff development and continuous improvement.
