2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Each year, the school board reviews the materials used in Northern Humboldt. The following is from the September 12, 2023, School Board meeting.

Whereas, sufficient textbooks and instructional materials were provided to each student, including English learners that are aligned to the academic content standards and consistent with the cycles and content of the curriculum frameworks in the following subjects:

- Mathematics
- Science
- History-social science
- English/language arts, including the English language development component of an adopted program

Whereas, sufficient textbooks or instructional materials were provided to each student enrolled in foreign language or health classes, and;

Whereas, laboratory science equipment was available for science laboratory classes offered in grades 9-12, inclusive;

Therefore, it is resolved that for the 2021-22 school year, the Northern Humboldt Union High School District, has provided each student with sufficient textbooks and instructional materials aligned to the academic content standards and consistent with the cycles and content of the curriculum frameworks.

Board Approved: September 12, 2023

School Facility Conditions and Planned Improvements

The facilities at Arcata High School are good and represent the pride of the Northern Humboldt Union High School District in providing students and teachers with clean and modernized classrooms. The custodial staff maintains the school in a manner that reflects the pride and sense of accomplishment that all members of the school community feel. Safety inspections are conducted regularly, and any safety-related problems are addressed immediately, ensuring that every possible effort is made to provide a safe and appropriate educational environment.

As a result of a bond measure, Arcata High School facilities have undergone remodels and upgrades that provide a truly comfortable and productive learning environment. All classrooms are modern, clean, and well-lit. Recently, a new track/soccer/football field & baseball field were completed to allow students more options during Physical Education class and after-school athletics.

Facility grants have been secured to update our woodshop area, culinary room, agriculture outdoor space, sports facilities, and the Fine Arts building.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2022-23 Career Technical Education Programs

Arcata High School offers a variety of Career Technical courses. Wood Shop, Metal Shop, Automotive Technology, Technology Essentials, AP Computer Programming, Gaming, Video Production, Makers Workshop, Beginning/Intermediate/Advanced Foods, Work Experience, and Personal Finance are courses that are offered. Students have the opportunity to take classes beginning their freshman year and continuing through their senior year. The district is fortunate to have dedicated teachers and community members who support the many programs offered. We continue to look at options for the future, especially in technology, as this is a skill in our twenty-first-century economy where employment possibilities exist in all areas of career technical education programs.

The Arcata Arts Institute (AAI) has blossomed into a model program that promotes art education and infusion throughout the school and community. AAI works with local artists to bring professionals into the classroom to teach and mentor the art students. Art showings are presented in local businesses every month in conjunction with Arcata Arts Alive. The Arcata Arts Institute is dedicated to the idea that art matters. The AHS Agriculture program continues to grow with interest and academic offerings. Through a statewide grant, the Agriculture program is offering additional AG Science courses and providing supplemental educational materials to the program. This year, we have added Ag Mechanics & Ag Leadership to increase the offerings in this program.

The Career & College Center (C&CC), Transition Partnership Program, and Career Pathways program are collaborating to provide support for students as they transition from high school to college or directly into the workforce. The C&CC is a shining example of the district's commitment to helping students succeed. They regularly offer counseling for financial aid and college applications, career Speaker Panels, Job Readiness Workshops, Career Exploration field trips, and individual counseling to help students navigate postsecondary options.

2022-23 Career Technical Education (CTE) Participation

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results					
This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement
Arcata High School has a strong tradition of parental involvement in curricular and extra-curricular activities. Arcata High encourages all parents to remain involved in their students' educational lives. Parent participation in site council is robust. Parent involvement in other opportunities includes Tigers Inc. (Parent Booster Club), School Site Council, Madrigal Parent Group (Music Booster Group), ArMack Parent Group (Music Booster Group), The Arcata Arts Institute, and AHS Friends of Agriculture Organization, as well as outside groups, like Safe and Sober Graduation Committee.
At Arcata High, many parents are actively involved as volunteers for athletic and extracurricular programs. Parents provide support in many areas, from running a snack bar to mentoring students in the arts and academics.
AHS utilizes our Site Council and holds annual Educational Partners meeting(s) to gather feedback from parents/students/faculty and community partners. Parents can inquire through the Principal's Office for information about these organizations. In addition, parents contribute to the Athletic Advisory Committee which advises the school board in updating the Athletic Handbook.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school Dropout Rates;
- High school Graduation Rates; and

2023-24 School Safety Plan

Arcata High School takes pride in maintaining a safe physical and emotional environment for our students, staff, and the extended community. Our site Safety Committee has a close working relationship with the Arcata Police Department, Arcata Fire Department, First Responders, Humboldt County Public Health and the Humboldt Office of Education Risk Management Team. Each semester we hold safety trainings such as earthquake, fire, and lockdown drills. Our comprehensive safety plan is reviewed annually, sent to the School Board for approval, and posted on the AHS website.

The District Safety Committee holds regular safety meetings to improve and monitor each site's progress related to safety procedures and protocols. The primary goal of the District and Site Safety Committees is developing and enhancing emergency readiness plans at the school and implementing policies that promote good mental health.

Professional Development

NHUHSD continues to use Instructional Coaches to infuse professional development programs within the district. The Northern Humboldt Union High School District has always had a long-standing commitment to supporting professional development within our district. Over the past few years, the Arcata High School staff has had many opportunities to attend workshops and training that promote improved instruction within their programs. AHS has worked to implement its MTSS, tier 1 supports by creating a school tier 1 leadership team and providing training for staff in positive behavior supports and universal design for learning. In addition to days devoted to PD, Instructional coaches and TOSA's provide instructional updates at selected staff

Professional Development

meetings. Professional development is also offered on an annual basis for teachers of Advanced Placement courses. Finally, Department Chairs have the opportunity to submit requests for additional PD opportunities that are specific to their department.

Arcata High School continues to participate in the state-recognized New Teacher Induction Program (NTIP). This program matches beginning teachers with experienced mentor teachers in order to promote a supportive environment for new teaching professionals. Additionally, AHS has a 1.0 FTE Instructional Coach that works with our beginning teachers throughout their first few years (at the school) and provides training and curricular support. The instructional coach offers three PLC's at AHS. There is a Level 1 and a Level 2 PLC for Universal design for learning. These groups are grant-funded, and participants receive a \$1000 stipend at the end of the year. There is also a voluntary PLC for teachers in the NCSOE Induction program who are working toward clearing their credentials. This program has proven extremely beneficial in providing new employees with the tools necessary to experience success as beginning teachers. We are committed to providing extensive support for our teacher's professional growth to maximize our effectiveness in providing an excellent educational experience for our students.
