2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2021-22 Teacher Preparation and Placement

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered “ineffective” under ESSA)

School Facility Conditions and Planned Improvements

The main building of Ferndale High School, built in 1952, contains the school office, 12 classrooms, and school library. The adjacent shop building houses the woodshop and agricultural mechanics shop. The gymnasium, built in 1975 with a seating capacity of 881, contains men's and women's locker rooms, and coaches' offices. Facilities provide adequate space for the instructional program at Ferndale High School.

As Ferndale High School ages, the LEA is working to maintain and upgrade the structures. During the summer of 2023, the main building of the high school was replaced to help address leaks and damage that occurred over time. FHS is also in the process of replacing several doors that have deteriorated over time. Several heaters in classrooms have also been replaced. The superintendent is working with an architectural firm to assess and repair damage from several sizable earthquakes in the past two years. There are also plans to resurface to main parking lot to repair cracks and pot holes. The visitor's football bleachers will be repaired before next year's season. The district is working with several companies to help find funding for these projects

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	46	18	38	38	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. 2022-23 Career Technical Education Programs

Ferndale High School offers vocational training through CTE Pathways, Building Trades, vocational agriculture, and work experience programs. The majority of Ferndale High School graduates, including those students who will go on to two or four year colleges, have completed courses in vocational education while in high school. Students enrolled in vocational programs receive work preparation skills, and may qualify for certification upon completion.

Ferndale High School's agricultural programs offer CTE pathways in the fields of Ag Mechanics, Agriscience, Ag Business, and Horticulture. We also offer a CTE pathway in the field of patient care. Each of Ferndale High's pathways include an introduction class, a concentrator class, and advanced classes. Our school is working with College of the Redwoods to add additional pathways in the health concentration for the future. For a small school, we are extremely proud of the opportunities our students have via CTE pathways.

2022-23 Career Technical Education (CTE) Participation

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Ferndale High School values parental involvement in our school. Every parent is invited to meet with our academic counselor yearly to help their student plan for college and career readiness. Ferndale High School also offers an open house at the start of every school year. Parents are invited to meet teachers and learn about the programs and opportunities offered at our school. The school also offers several committees that parents can volunteer for. These committees included the School Safety Committee and the Academic Advisory Committee.

Ferndale High School also offers parents opportunities for involvement in nonacademic environments. Our Parent/Student/Teacher association (PASTA) works to plan several activities for students like our annual Safe and Sober graduation party. This allows parents, students and teachers the opportunity to work together to plan events for our school. Parents also have the opportunity to be involved in the Ferndale High Booster Club. Our boosters help fundraise and organize activities that support different athletic and academic clubs and teams..

2023-24 School Safety Plan

The Ferndale Unified School District Comprehensive School Safety Plan was created in October 2010. In 2021 the plan was revised and updated to meet new requirements. The plan has been reviewed and updated annually since that date, most recently in spring of 2023. The Plan includes District policies covering school rules, discipline procedures, child abuse reporting procedures, and plans for disaster preparedness integrated with the Community Disaster Plan.

Contributing to school safety are the small sizes and the close relationship between faculty members, students, parents and the community. This relationship fosters a safe and caring learning environment for students. Many inter-district transfer students attend Ferndale High School often being attracted to the school because of the intimacy of the school that includes the small class sizes. Student government and Leadership class promote the attributes of student involvement and self determination.

School staff is available to students and parents for providing academic assistance, academic and intervention counseling, and dealing with issues of concern. Abundant opportunities are available for students to actively participate in co-curricular and extra-curricular programs. Seventy five percent of the students enrolled at Ferndale High School are active in extracurricular and/or cocurricular programs, including athletics, FFA, programs for the arts, and student government.

School discipline focuses on the use of restorative practices and is tailored to honor the unique circumstances accompanying each student issue requiring intervention and promotes student safety and a positive school climate. Our staff utilizes a student-centered case-by-case approach. With this program, interventions may range from conversations about a particular occurrence, verbal and/or written warnings (referrals) about an occurrence, time-outs and/or detentions (teacher initiated and monitored), community service assignments, campus/activity restrictions, and in school and from school suspensions and/or expulsion from school (Grounds for Suspension or Expulsion: Education Code 48900).

School climate and school discipline go hand-in-hand. The Ferndale High School Student Conduct Code is as follows:

1) Every attempt will be made to maintain the dignity and self-respect of both student and adult.

2023-24 School Safety Plan

- 2) Students will be guided and expected to solve problems they create without creating problems for anyone else.
- 3) Students will be given opportunities to make decisions and live with the natural and/or logical consequences of their decisions be they good or bad.
- 4) Students will be given the opportunity to share their information or let their concerns be heard at an appropriate time and place.

Fiscal Year 2022-23 Types of Services Funded

State and Federal categorical funds are used to provide CTE Courses, English Language Learner services, Enhanced FFA Program, School Counseling, Class Size reduction, and Special Education services.

Ferndale High School uses State and Federal Funds to provide opportunities for all of our students. English Language Learner services are offered to our students who are learning English as a second language. Special Education services are funded to allow students with disabilities the ability to receive support and access curriculum. Ferndale High School offers a range of elective classes that lead to CTE/Agricultural Pathways. Students have access to 5 different pathways in the health and agricultural fields. Our high school offers an academic counselor who meets with every student and parent annually to plan for high graduation and post high school success. Funds are also used to keep class sizes as small as possible as small teacher to student ratios help improve student achievement and experiences.

Professional Development

On an annual basis, staff and administration will discuss priorities for staff development for the year. Then, as staff requests to attend development activities, they will discuss with administration how it will help them adhere to California State Content Standards, contribute to School Climate goals and/or improve classroom management and trauma informed teaching practices. Upon their return, staff members will share their experience with their department, the administration, and other instructional staff to see if anything can be gleaned that would be of use to the school.
