2022-2023 School Accountability Report Card

(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

SCHOOL OVERVIEW:

Lemoore Online College Preparatory High School is a fully accredited online high school designed for students in grades nine through twelve who are interested in a virtual/online classroom experience that promotes college and career readiness while on the path to high school graduation. Our campus is located on the West Hills College campus in Lemoore, CA. Our unique partnership with this community college allows us to streamline opportunities for "dual enrollment"; all Lemoore Online students are encouraged to enroll in college courses wherein they earn both college credits while at the same completing the requirements to earn a high school diploma.

OUR APPROACH:

As a 21st century school utilizing an entirely online curriculum, each of our students is issued a Chromebook so that they can engage with the curriculum via the online learning platform - Edgenuity. The Lemoore Online teaching staff are all fully credentialed in their respective content areas (e.g. Secondary math, English/ELD, AVID, science, social studies, PE, and special education). Our staff has also completed additional staff development in order to enhance their ability to navigate the online learning environment effectively in support of our independent study students with a focus on the following areas: 21st century communication skills, virtual learning, digital tools, social-emotional learning, and trauma-informed practices. The Lemoore Online staff takes great pride in our ability to foster supportive relationships between students, teachers, counselors, administrators, and student advocates. We believe that each student's school experience functions best if it is supported by a team of educational partners. At Lemoore Online each student is supported by a team consisting of: a teacher, parents/guardians, a counselor, an administrator, etc., that work together to make up the student's "learning team". During orientation, the Learning Team collaborates to create each student's individual academic plan which is re-evaluated during weekly check-ins with the teacher (held in-person or virtually) that are used to both evaluate student progress and determine student support needs. At Lemoore Online, the term "Independent Learner" doesn't mean that the student is alone. Our staff works with every student to make sure they are supported on their path to becoming a self-sufficient, independent learner. So whether a student is focusing on credit recovery on their road to graduation or pursuing an accelerated, college prep program, our teachers and staff get to know each student's goals and needs and use this knowledge to enhance the student learning experience. Our teachers provide academic and emotional support that allows students to be successful while progressing at their own pace. We understand that the goal of education is to encourage students to discover and develop their interests,

2023-24 School Description and Mission Statement

talents and natural gifts. This approach inspires our students to become active learners who think independently, communicate effectively and see themselves as members of a global community. Our teachers and our program give students the necessary skills to become self-directed adults who are confident about and prepared for their "next steps" into college and career success. Furthermore, Lemoore Online parents are given the tools to communicate with their child's teachers, are encouraged to attend all meetings and events, and have real time access to their child's progress in all courses via the online learning platform - Edgenuity. We pride ourselves on creating a connected and communicative "family atmosphere" wherein students feel supported, motivated, and ready for success. Our program also offers students access to an academic counselor and a social worker. Finally, as a Lemoore Online LYNX, our students learn what it means to carry with them the important lessons of C.L.A.W.S. - Communication, Leadership, Accountability, Work Ethic, and Self-Awareness.

LEMOORE UNION HIGH SCHOOL DISTRICT "Core Beliefs":

- All students can learn
- All students deserve our best effort
- All students learn differently and may need individual attention
- Our jobs are, first and foremost, to help students achieve
- Everything we say and do has an impact on students
- Students must feel safe, respected, and supported at school
- All students can be prepared for college
- Student failure is preventable
- All students can be responsible contributors to their respective communities

MISSION:

Lemoore Online College Preparatory High School seeks to provide a rigorous, web-based curriculum to students who benefit from a non-traditional school environment. Students will receive a standards and research-based college preparatory curriculum in an online, virtual classroom experience along with supports from experienced teachers, counselors, and administrators at our campus-based student support center.

VISION:

All members of the Lemoore Online community will develop their mental, physical and emotional needs from an individualized education that will aid them in achieving career and academic successes.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Lemoore Online College Preparatory High School staff and the Lemoore Union High School District take great efforts to ensure that the school is clean, safe, and functional. To assist in this effort, the district utilizes a facility survey instrument developed by the State of California OPSC. The results of the tool resulted in an overall "Exemplary" rating (100%) for the school facilities. The results of this survey are available at the school office, at the LEA office, or on the Internet at: lemooreonline.luhdsd.k12.ca.us.

Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

This school consists of the following: there are 2 classrooms (i.e. The Learning Center) utilized by all students and teachers; there is 1 "Conference Room" utilized by Student Services and the Special Education teacher; there is 1 Counselor's office, and 1 Administrative office. The main campus, located on the West Hills College campus in Lemoore, CA, consists of portable buildings and is seventeen years old. In conjunction with Lemoore Middle College High School (and the greater Lemoore Union High School District), Lemoore Online shares restroom and food service facilities. All buildings have had the roofing replaced within the last 4 years. New filtered water fountains were installed recently in the cafeteria and in one of the classrooms for student and staff use. The Lemoore Online "Learning Center" buildings were remodeled 3 years ago in order to increase the square footage to accommodate the growing student population. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	15	2	20	22	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Lemoore Online welcomes the partnership of all parents/guardians.

Opportunities for parent involvement include:

*Attending and participating in their student's Orientation each semester

*Attending and participating in their student's weekly student/parent/teacher "5-Day Progress Meeting" which is hosted by the teacher

*Participating in the Lemoore Online Charter Council which, in part, serves to develop the school's LCAP (i.e. the document that sets forth a plan for the site's goals and how it will utilize its resources to meet those goals) over the course of 4-6 meetings each school year

*Serving on the Lemoore Online WASC team

*Participating in parent surveys sent out bi-annually

*Attending one of our many parent information nights throughout the year which are hosted by site admin and the school's counselor as well as by West Hills College. Topics include: dual enrollment, college and career readiness, financial aid, etc.

C. Engagement

2023-24 School Safety Plan

Lemoore Online College Preparatory High School, as part of the LUHSD, has a School Safety Plan and Crisis Intervention Plan on file and available for parents as well as the general public. The school plans are reviewed and updated on an annual basis. The plan has been developed by the staff with input from parents and community members to work to ensure a safe and non-violent environment. The School Safety Plan also includes information on communication with outside organizations, police, and fire protection. Meetings are held regularly with the Lemoore Police Department, Probation Office and the Sheriff's Office to make sure that the lines of communication are open and all those involved know their role.

Additionally, practice drills are held annually to make sure that students and staff understand what to do and where to go in the event of different types of emergency situations. The district also provides a Youth Development Officer who is shared with other schools in the district. A campus monitor is shared between Lemoore Middle College High School and Lemoore Online to provide constant supervision of the school grounds and students.

Professional Development

Professional Development is a crucial part of our commitment to continuous improvement at Lemoore Online. Throughout the course of the school year this work takes on various forms. Over the summer, several of our staff members (including our principal and some of our teachers) attended AVID (Advancement Via Individual Determination) training via an online AVID Conference. This work is directly correlated to our Homeroom class (a core element of our program) where each student has weekly engagement with topics such as: time management, work ethic, academic language, college readiness, goal setting, etc. As a District, we have also made a commitment to Equity training with our entire staff. At Lemoore Online we tailored this work to fit the needs of both our students and our staff by exploring topics such as: social-emotional learning, trauma-informed practices, self-care for educators, bias, and modifying assessments to accommodate diverse learning needs. During our monthly Staff Meeting we are continuously exploring more effective ways to support, guide, mentor, intervene with, and encourage our students. During Staff Meetings the principal reviews current student data in several key areas (e.g. student attendance, grades, behavior, engagement in Homeroom, and the MTSS process) and the staff work on a plan that addresses current needs according to the data. Finally, our staff is developing an ELD Program to begin in the 24-25 school year. In anticipation, two of our teachers have been working with the Kings County Office of Education developing a Designated ELD class which will support the language acquisition needs of our English Learner students.
