2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Donald C. Jamison High School (JHS) is a continuation high school, which began serving Lemoore area students in 1991. It is located east of Lemoore High School and serves students in grades eleven and twelve. JHS is named in honor of Donald C. Jamison, the first principal and pioneer of continuation education in our school district. Mr. Jamison was principal of the former South High School from 1974, until his retirement in 1983. It is said that Mr. Jamison was a fierce defender and advocate of “his kids” at South High and that he was committed to providing the guidance and nurturing that would ensure the success of each of his students. His philosophy of supporting students continues today at JHS.

JHS has seven full-time teachers and one part-time teacher. In addition to the teachers, we have a support staff that includes a part-time registrar, principal’s secretary, intervention aide, behavior technician, counselor, and principal. Jamison High School also has district support staff on campus on a regular basis to help meet our student’s needs.

The school year is divided into trimesters. The trimester system works well for our students because they can see their educational goals being met at a faster rate. The school day consists of six periods. The extended periods allow teachers to implement hands-on project-based assignments as well as research-based assignments. The majority of our students are full-day students, while others have a modified schedule based on student needs. The teacher to student ratio is one teacher to approximately fifteen students. The smaller number of students per class provides the opportunity for teachers to get to know the students, which in turn builds a strong working relationship in the classroom.

The curriculum at Jamison High School has been designed around the Common Core State Standards (CCSS). Teachers work in PLCs to collaborate on a regular basis. During that collaboration, they come up with a variety of different ways to reach the different learning modalities of students in the classrooms. Jamison High School students are offered a variety of curriculum to meet their graduation requirements. In order to graduate, students must successfully complete 220 credits in required courses. Along with the core curriculum, Jamison High School offers a variety of elective classes such as Criminal Law, Art, Drama Production, Graphic Arts, Ornamental Horticulture, PE, and Leadership. Jamison High School also offers an online credit recovery program called Edgenuity.

Jamison High School appreciates the technology demands that will be placed upon students when exiting high school. In order to prepare students for such demands, each student has been issued a Chromebook. Chromebooks are used to assist students with internet research skills needed to complete assignments. Teachers also have Google Classrooms established

2023-24 School Description and Mission Statement

where students go to complete and turn in assignments. Jamison High School classrooms have document cameras and Smart TVs to assist teachers with instruction.

Our student body consists of students transferred from LHS and out of the district. Students are transferred to JHS via Student Discipline Review Board (SDRB). The majority of the students are involuntarily sent due to attendance and being behind in credits. Students have the opportunity to make up credits and return to LHS for their senior year.

Vision: Jamison High School strives to become an innovator for continuation schools by providing students with a research-based education to produce graduates with the academic, technological, and social skills to become integral parts of society.

Mission: The mission of Jamison High School is to provide a quality education for students needing an alternative to a traditional high school setting. Jamison High School fosters the philosophy that all students can learn in an environment where they are valued and given the attention that is difficult to attain in larger educational settings. The staff at Jamison High School is committed to preparing and supporting students to succeed academically, compete in a competitive job market, and become productive and ethical members of their communities.

Beliefs:

We believe all students have a fresh start upon enrollment.

We believe each student can learn and reach his/her highest potential.

We believe staff makes a difference, ensuring all students can get back on TRACK in a safe and quality learning environment.

We believe each student is unique and we must maintain clear and high expectations for all learning modalities.

We believe in a partnership with the community and instill a life-long commitment to community service.

Values:

We value the input of parents, students, staff, and the community in the decision-making process.

We value the uniqueness of each student and the talents they bring with them.

We value rigor and relevance in both the instruction and assessment of our students.

We value respect for and accountability from all members of our community.

Commitments:

We are committed to preparing our students for the "Next Step."

We are committed to providing the structure needed for successful learning in and outside the classroom.

We are committed to providing our students with the experience and connections necessary to become responsible members of society.

We are committed to continuous improvements and constant evaluation to maximize our students' performance.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. 2023-24 School Safety Plan

Jamison High School, as part of the Lemoore Union High School District, has a comprehensive School Safety Plan that was developed with input from staff, students, and parents to work to ensure a safe and non-violent environment. The plan is discussed and approved by the school site council and safety committee, and the school board annually. From their input, the plan has several goals in the area of creating a safe school environment and teaching resiliency skills in order to have a caring and connected school climate. The School Safety Plan was reviewed and discussed by school faculty and students in the months of October and November and then updated. The JHS Site Council reviewed the School Safety Plan on November 27, 2023 and discussed with school faculty and school representatives on December 1, 2023.

The plan also includes information on communication with outside organizations, police, and fire protection. Additionally, practice drills are held regularly to make sure that students and staff understand what to do and where to go in event of different types of emergency situations. Using the bell system, the school has created different tone qualities to alert staff and students of the types of emergency situations that are underway. An emergency phone line was created for the staff of Jamison High School for quick communication purposes for emergency needs.

The school plan is reviewed and updated regularly.

Professional Development

Jamison High School has calendared 2 hours every Monday and Friday for professional development and/or collaboration. The primary focus of the professional development over the last couple of years has been on the PLC and MTSS processes. Professional development takes place both on campus and off campus at conferences. Jamison High School works with Solution Tree and the Educational Equity group on a regular basis to provide staff development to the JHS staff in an effort to improve academics and behaviors on campus. Jamison High School is also working with Santa Clara County Office of Education Ways to Equity team as part of their professional development. In addition to those three groups Jamison High School offers NTI, Aeries, UDL, State Testing, Safety, and Counselor trainings each year. JHS is also present at the CCEA conference. Student Services offers staff training throughout the year to the staff at JHS in areas such as CPI, SEL, and Motivating the Unmotivated. The SPED teacher at JHS also attends PD on IEP and SPED related topics.
