**Grade
Span:** 6-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2023–24)

Los Angeles Academy of Arts and Enterprise (LAAAE) is a small, independent public charter school serving students in grades 6–12. Serving students in the Los Angeles neighborhoods of MacArthur Park, Korea town and Downtown LA, LAAAE is an inner-city school that largely serves educationally disadvantaged pupils. Despite these challenges faced by a predominantly immigrant, minority socioeconomically disadvantaged student population, LAAAE is dedicated to continuous school improvement and students have demonstrated significant academic gains.

Los Angeles Academy of Arts and Enterprise's mission is to prepare students for leadership in the arts and business, where creativity, academic knowledge and financial literacy are essential for success. We are developing a generation of diverse, educated, compassionate leaders in the arts and business by providing a dynamic, innovative education that integrates the four lenses of learning: Academics, Arts, Enterprise, and Personal Growth.

Academics: The LAAAE curriculum fully addresses the core academic content standards of the California State Board of Education and meets the University of California A-G requirements.

The Arts: LAAAE provides comprehensive courses in the Visual and Performing Arts. Enterprise: LAAAE provides business education courses that teach core and advanced principles of enterprise, economics, and entrepreneurship.

Personal Growth: LAAAE focuses on personal growth and responsibility to self and others, through character education, and community service.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on full-time equivalent (FTE) status. One FTE equals one staff member working full-time; one FTE could also represent two staff members who each work 50 percent of full-time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAA] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAA for ELA** in grades three through eight and grade eleven.
 2. **Smarter Balanced Summative Assessments and CAA for mathematics** in grades three through eight and grade eleven.
 3. **California Science Test (CAST) and CAA for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: ELA and Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAA divided by the total number of students who participated in both assessments.

Career Technical Education (CTE) Programs (School Year 2022–23)

Los Angeles Academy of Arts and Enterprise has a robust business career technical education program with a variety of business, marketing, and entrepreneurship courses. At the high school level, students enroll in year-long courses. LAAAE has a partnership with the National Foundation for Teaching Entrepreneurship (NFTE) to provide additional hands-on activities and competition opportunities for students. Since then there has been an expansion of multiple pathways in the Arts, Media, and Entertainment Sector. The Animation and Cinema Production pathways work closely local organizations to provide additional college courses within the pathways and prepare students for career certifications. The Production pathway provides students insight to the world of sound and music production while giving them real world experience as they run the school's radio station and produce all the content aired. The new Work Experience Education program is working to provide CTE students with real world opportunities.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site

Opportunities for Parental Involvement (School Year 2023–24)

Parents have many opportunities to be involved and engaged with our school via multiple on-campus events including Coffee with the Principal, Back to School Night, Open House, SSC, ELAC, and other parent events. More structured activities are board retreats and board meetings. All stakeholders, including parents, are informed of these meetings through communication outreach efforts led by the school's parent coordinators. Parents who attend the meetings are always encouraged to contribute to the discussion of

schoolwide goals, including the development of the Local Control and Accountability Plan (LCAP).

The Parent Teacher Organization has a regular bi-monthly meeting schedule. Parents are also able to get involved via parent-specific meetings and parent education workshops hosted by school administration and community organizations. The parent meetings are largely informational and for organizing purposes. Parent workshops, however, range from understanding college applications to FAFSA (Free Application for Federal Student Aid) to understanding the A-G requirements. Since parents are encouraged to volunteer at school, there are also several opportunities for volunteering. These activities range from chaperoning a field trip to general school supervision to school beautification. For additional information, please contact the Parent Coordinator, Ana Grajeda at 213-487-0600.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

Dropout Rate and Graduation Rate (Four-Year Cohort Rate)

Note that students at LAAAE must meet A-G requirements to graduate when possible, and are also held to the "no D" policy to receive credit for courses, unlike comparison resident schools.

School Safety Plan (School Year 2023–24)

The School Safety Plan created for Los Angeles Academy of Arts and Enterprise is compliant with all local and state guidelines. This plan includes disaster response procedures and safety procedures for on-campus activity. The plan is reviewed annually with all faculty, and includes protocols for fire, earthquake, and lockdown emergency drills. Fire, lockdown, and earthquake evacuation drills are held regularly. LAAAE is a closed campus. All visitors must register with the office and are assigned a pass that permits them to visit only specific offices or classrooms. The School Safety Plan was last reviewed by the school community on August 1, 2023.

Types of Services Funded (Fiscal Year 2022–23)**Instructional Program**

Increased student achievement is a priority. Resources have been and will continue to be allocated to ensure academic achievement. The data and academic monitoring detailed above was utilized to ensure continuous review and provide opportunities for intervention, if necessary. Key academic interventions that were in place and are planned are clustered below by content area. The final component includes interventions that are applicable across all content areas.

Reading

Students not demonstrating Common Core grade-level proficiency are assigned additional support services. Professional development was provided to ensure effective implementation. Provide additional professional development to reinforce the Teach Like a Champion strategies.

English Language Arts

Incorporated StudySync curricula to academically prepare all students for advanced placement and college-level coursework.

Implemented reading intervention as described in the previous section to improve English language arts skills.

Mathematics

Incorporated CPM curricula to academically prepare all students for advanced placement and college-level coursework.

Increased use of manipulatives to reinforce mathematics standards.

Increased collaboration with science to reinforce mathematics standards.

Science

Acquired additional laboratory equipment and supplies to increase hands-on activities for students.

Developed partnerships with community groups such as Amgen Biotech Experience to provide the temporary use of loaner science equipment for more complex laboratory activities. Developed partnerships such as Aquarium of the Pacific, Sierra Club, and University of Southern California's Interaxon to increase both onsite and field science experiences for students. Varying from the salt flats to Catalina Island, over half a dozen science-related field trips occurred.

Visual and Performing Arts

Acquired additional instruments to ensure ongoing development in the music program.

Strengthened partnerships with community agencies to provide additional arts experiences to students. For example, the Los Angeles Theatre Company (LATC) provides free or reduced tickets to productions throughout the year. Woodcraft Rangers provides additional arts programming beyond school hours.

Other Supports

Before and after school academic support is available to all students via teacher office hours or through the afterschool program partnership with Woodcraft Rangers.

Additional before school academic support is available to English language learners and students with disabilities.

Expanded athletic activities which require minimum GPAs to participate.

Allocated funding to maintain low-class size so that teachers can personalize instruction and develop positive relationships with students.

Provided increased professional development activities such as meeting the needs of English language learners (SDAIE), special education students, using data to guide instruction, and arts integration. Promoted student self-advocacy and goal setting through the implementation of student growth notebooks during the advisory period.

Continued Support for the Students' Non-Academic Needs

The athletic program began in 2012 and has expanded. Joining the California Interscholastic Federation (CIF) as an associate member, girls and boys soccer was our inaugural sports in school year 2012-2013. Co-ed cross country was added in 2013-2014. Cheerleading, girls' volleyball, boys' basketball, and girls' softball were added in 2014-2015. The majority of the athletes are earning a 3.0 or above GPA. Other athletic opportunities are provided via the after-school program provider, Woodcraft Rangers. Student government now plans and coordinates student activities. Daily after-school programming is also provided and includes: academic support, enrichment, and recreation. To develop student empowerment, students have been actively participating in shared decision making. For example, student leadership selects their lunch menus (within NSLP guidelines). Students also serve on interview panels and provide feedback on teacher candidates.

To assist our students with external and home issues, we are collaborating with a number of community agencies and have referred many of our student body to counseling or other types of intervention or support. We have partnered with the Los Angeles County Department of Mental Health to provide onsite mental health counseling to both students and their families. The food service program has expanded so that hunger is not a barrier to learning. Snack is provided to students who stay for after-school programming. We continue to identify community partners to provide additional resources for our students and families.

Many of the aforementioned activities and interventions were driven by feedback from students and other stakeholders provided at the semiannual

retreat and in the annual school climate survey. The board and administration will continue utilizing these tools to ensure continuous school improvement. Meeting the nonacademic needs of students is necessary to increase student engagement and school persistence.

The inclusion of all stakeholders is necessary for continuous school improvement. Regular school retreats occur and include and participants include: board members, faculty, staff, students, and parents. Among others, retreat workshops included studying successful charter school models, data analysis, and school-wide learner outcomes. Obstacles and challenges were identified to ensure that high expectations and an infrastructure enabling the same continued.

Due to the successful outcomes of the retreats, the governing board determined that retreats would be a fundamental annual platform for self-evaluation and collaboration amongst all stakeholders. Students also participated in school development and leadership activities as well as culture and community improvement activities. Within the past few years, the board has adopted policies to increase academic expectations of students. These include promotion guidelines for both middle and high school students and the elimination of the "D" grade. These policies have yielded increased student outcomes. Beyond students, high expectations are expected of the leadership, faculty, staff, and parents. Additional resources have been provided to enable the professional development of leadership, faculty, and staff. Faculty and staff professional development includes cultural relevance and the needs of disadvantaged learners, as further detailed above. Parents have also been provided with additional opportunities for participation. These opportunities have yielded increased parental engagement, including the development of the parent teacher organization(PTO). LCAP goals were designed in consultation with all stakeholders to increase student achievement and improve school culture.
