2022-2023 School Accountability Report Card

(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

We are the Roadrunners of Monterey Hills School (MHS). We serve the historical section of the Altos de Monterey in South Pasadena. The school is attractively located and maintained, making it a favorite of MHS parents and community members. Our playground area is surrounded by tall pines and hills interspersed with grass lawns and blacktop playground sections. MHS commemorated its 50th year as a school in South Pasadena Unified School District in 2018. We are proud to be a California Distinguished School, awarded to us in 2008, 2012, and 2018 by the California Department of Education. We were also a recipient of a Gold Ribbon Award in 2016. In 2019 we were named a National Blue Ribbon School and in 2021 we were awarded the Pivotal Program Award. Our school is in the top 10 percent of all California elementary schools based on the annual state testing results. We use our California Standards to guide us in preparing our students to be college and career-ready. We continually strive to build our instructional strategies to meet the needs of our student demographics and state and federal accountability mandates. We continue our work to build a school of awareness and inclusivity, through weekly assemblies highlighting various cultural groups. The mission of the Monterey Hills Elementary School community is to assist all students in realizing their full academic potential and personal social development resulting in responsible, independent, and motivated learners.

Our school population this year is approximately 600 students. As the smallest of the three elementary schools, we have had the opportunity to provide support to students through specialized programming from throughout the district, including a Special Day Class, Transitional Kindergarten classes, and the Spanish Dual Language Immersion Program. Unique to our site is our special day class program that services all three SPUSD elementary schools for students in 3rd-5th grade. This program is supported by a psychologist, a speech therapist, an occupational therapist, and an adaptive physical education teacher. Our Special Education Program is integrated with our regular education program and our SDC teacher, RSP teacher, and general education teachers work to provide effective mainstreaming opportunities and push-in and pull-out services in the least restrictive environment. MHS also provides a program for those students in the district who are eligible to participate in the Transitional Kindergarten (TK) program. We have had the program at our school for the last eight years and worked to create the district TK report card. We have implemented a Spanish Dual Language Immersion Program at our site and currently serves about 150 students, K-5th grade. Our goals are to develop bilingual, multicultural, and academically proficient students. Teachers are working with the administration to complete a master plan to ensure these goals are met.

Parents play a critical role at MHS. The MHS PTA provides enrichment experiences for all students by funding two field trip bus

2023-24 School Description and Mission Statement

costs and any related admission charges. The PTA also provides funding for technology, cultural assemblies, and playground equipment/improvements. Fundraisers such as Wish Night, a jog-a-thon, and several other events are scheduled annually to provide funds for an array of needs. Our parent volunteer base assists with school-wide special events as well as weekly time in the classroom. Alongside our PTA, our parents also serve on our School Site Council and help monitor our intervention programs.

We continue to strive to make our campus a space where children feel safe, happy, and included; where they have the opportunity to shine as students and friends; and a learning environment that meets all students' needs.

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. School Facility Conditions and Planned Improvements

The Monterey Hills Elementary campus was originally built in 1968 with all original structures being fully modernized in 1999. During the 2021-22 school year, a two-story structure was added to replace the many portable bungalows that had been placed on campus to accommodate the growth of our student population. Current facilities include 25 permanent classrooms, a library, an enlarged office, a staff workroom and faculty lounge, an auditorium/multipurpose room, an art room, three rooms for support staff, and two rooms for daycare.

The district governing board has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school and district offices. The principal meets frequently with the plant foreman who oversees two full custodians to coordinate work schedules and the quality of room cleanliness. The principal also does frequent plant inspection walks with the plant foreman to note areas needing upkeep or repair in order to ensure an attractive and safe school. Our classrooms and surrounding ground areas are clean, graffiti-free, and attractive. The community takes pride in our school site's attractive playground and the buildings' cleanliness. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. Our restrooms are clean and in good working order.

While reviewing this report, please note that even minor discrepancies are reported in the inspection process. The items noted in this report have been corrected or are in the process of remediation.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments
(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP						
This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment. Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.						
Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Parents have many opportunities to participate at Monterey Hills School. Parents are active members of our School Site Council and are recruited to serve. Over 90% of our parents attend fall and spring parent-teacher conferences as well as the Back-to-School Night. Parents contribute their talents through conducting science assemblies, visual and performing arts activities, art projects, and volunteering in the classrooms and on field trips, as chaperones.

The MHS PTA is active. Along with many programs they also raise funds for extra-curricular activities. These funds support individual classrooms as well as grade-level activities in five different areas: cultural arts, academics, physical education, technology, and community service. The South Pasadena Educational Foundation (SPEF) raises funds to support various programs. Our PTA contributes to our school program both through volunteer time and financial contributions.

2023-24 School Safety Plan

The Monterey Hills School meets annually to update the School Safety Plan (SSP). It is comprised of two major components that address both a safe learning and a secure social environment wherein the cultural, racial, and religious diversity of both students and staff members is respected. The plan is shared with and updated by the staff during a faculty meeting. The SSP was last updated in January 2024.

MHS conduct monthly drills. The drills that are practiced are fire, soft lockdown, hard lockdown, and earthquake. Our students also participate in the Great California Shake-Out.

Two current safety considerations include improving the efficiency of student ingress and egress and continued implementation of the district's Bullying Prevention policy. Our Second Step program as well as the Bullying Prevention Units support the district's Bully Prevention policy. The district's Code of Conduct is central to how our students, staff, and parents are expected to respectfully interact with each other. Student safety is ensured in a number of ways. Teachers and yard-duty aides provide supervision on the playground. Students use the three rules: Be Safe; Be Respectful and Be Responsible, along with the Golden Rule to guide the decisions they make on the playground and in the classroom. Staff wear their badges to identify themselves and all parents and adult visitors are asked to sign-in at the front office.

Professional Development

Annually, four staff development days are scheduled into the school year to address both site and district-level needs. These professional development days are aligned with the Board of Education’s annual goals and Strategic Plan. The Monterey Hills staff, along with the other two elementary school staffs, participate in all District offered staff development. Some topics that have been addressed include the evaluation of small group instruction, writing instruction, neuro-diversity, common assessments, differentiated learning strategies, Thinking Maps, technology, Project-Based Learning (PBL), and Common Core State Standards.

Staff development is also delivered at monthly faculty meetings, during grade level release time, and through attendance at various conferences. Professional development opportunities offer teachers the opportunity to collaborate with one another about their curriculum, instruction, and assessments; to share best practices with colleagues; and to discuss ways to better support our students’ learning. Teachers at every grade level have participated in Cognitively Guided Instruction (CGI) training provided by the UCLA Math Institute. As a means of meeting Next Generation Science Standards, all of our teachers were trained in Twig Science curriculum. Teachers are currently participating in small group instruction training.

Teachers are supported through their Path I (feedback after formal observations) and Path II (plan to address teacher standards agreed upon by teacher and principal) plans. Additionally, grade-level meetings, data analysis meetings, and peer planning meetings allow teachers to learn from their peers.

This table displays the number of school days dedicated to staff development and continuous improvement.
