2022-2023 School Accountability Report Card

(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Mission Statement

The Charter School's Mission is to educate each child individually and personally to the goal of each child's highest level of academic achievement, social and emotional growth enrichment.

Vision Statement

The Charter School envisions to progress along the continuum of the Mission to the goal of the Charter School's highest level of achievement in the various aspects of the Charter School's development. TFSCS envisions the lofty goal of preparing each child who attends the Charter School from Kindergarten through eighth grades (with parent participation and involvement) to be successful in high school and not only enroll in college, but finish college with a Bachelor's and post graduate degrees. The Charter School envisions preparing its students to become successful, productive members of society. TFSCS students will volunteer to assist their home school at TFSCS and others in society as they continue their successful achievement and growth by being lifelong learners.

The mission of TFSCS rests with a commitment to excellence in educating at risk students. First we must answer the question: "at-risk" of what? We believe our students are at risk of not having the same opportunities to quality education with educated and interested teachers, access to proven educational curriculums and exciting learning alternatives, therefore creating a challenging environment to reach their fullest potential. We believe parents are at risk of not recognizing the impact they have on the shape and development of their children's lives. We believe teachers are at risk of not believing all students can learn and are willing to provide instructional techniques to ensure students succeed in the classroom. Understanding what is at risk has enabled us to provide students, teachers and parents with an educational alternative built on clearly outlined personal and educational expectations and a proven, research based curriculum.

Today's Fresh Start Charter School's student population includes up to 93% of socio-economically disadvantaged students. Most new enrollees have attended underperforming schools in the geographic area and are educationally disadvantaged. Due to these disadvantages, many of these elementary aged students are deemed at risk of failing and not succeeding in the skills of lifelong learning. By providing an educational alternative, qualified teachers and a diverse learning environment offers the goal of ensuring no child is left behind. The early detection of each child's potential for success is a priority. Students have a

2023-24 School Description and Mission Statement

rigorous, hands-on, comprehensive and performance based learning environment. The TFSCS curriculum is strongly reinforced with intervention and enrichment studies including after school tutoring, small group instruction, Saturday enrichment studies and two weeks concentrated study prior to the start of school for students who need more academic help (as funds are available). These sessions form a bridge for students to achieve academic excellence, linking them to current study needs and a jumpstart prior to starting the school year. All students who are second grade through eighth grades have their personal laptop for school use. Students in lower grades, transitional kindergarten, kindergarten and first grade use other types of technology aside from laptops, such as tablets. In addition, all scholars at TFSCS have been offered a Lenovo Chromebook for at home use throughout the school year.

TFSCS uses a site-based model of instruction. Public District schools place in the bottom three declines on both the statewide and comparison schools in academic performance as shown on the California State Dashboard. Today's Fresh Start-Compton is a Community Eligibility Provision (CEP) approved school and therefore all students at TFSCS receive free breakfast, lunch, snack and supper.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Today's Fresh Start adopted McGraw Hill Curriculum in all grade levels for Language Arts Math, Social Studies and Science. We have incorporated into our program new ELD companion Worktexts for each student in grades K - 5. In Grades 6-8, we have implemented the ELD Companion embedded in Study Sync curriculum. We have also implemented the use of Math manipulative kits, as well as Science kits for grades K-5 for students to use at home. We have also purchased the McGraw Hill Science program, Inspire, for K-8, as well as the History-Social Science, Impact, (K-8) for our school. In addition, during the school year, 2022-2023, we implemented the PreK curriculum for our TK students in all core subjects. Also, to provide increased dedicated EL instruction we are using academic vocabulary Interactive Notebooks.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

C. Engagement

State Priority: Parental Involvement

 The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement
Parents are always welcome! Teachers and administration hold regularly scheduled parent involvement meetings, via Zoom, addressing a variety of topics wherein the subject matter to be discussed (such as bullying, taunting and teasing) is uniform in all classrooms. We have found this is the best way to increase parents' involvement when the teacher can inform parents of their classroom what their child is being taught and bring new information to the parents as well. In addition, we conduct Parent Math Workshops, EL " LA Lectura" classes for parents, Title I and Title III meetings via Zoom to ensure safety of all. Formal Parent conferences were held 3 times during 2022-23 to review student progress. Parents were also made aware of NWEA test results including student growth targets, strengths and areas in need of improvement. TFSCS implemented a voluntary Independent Study Program allowing parents to become active co-facilitators in their child's education. Parents participate on the School Site Council and ELAC committees.

2023-24 School Safety Plan

The school has adopted and implements a comprehensive set of health, safety and risk management policies. The school safety committee meets regularly and conducts monthly site inspections in an effort to maintain a safe campus and learning environment. All employees must submit to a criminal background check before being hired and must have periodic Tuberculosis (TB) tests. Fire drills are held monthly; emergency drills are held each semester. TFSCS has policies related to the administration of prescription drugs and medications. Our CSSP (Comprehensive School Safety Plan) , which was updated prior to the 23-24 school year, and was board approved in August, 2023, covers the following: Health and Safety Protocols, Covid-19 Testing and Reporting, Facility Cleaning and Sanitation Protocols , Social Emotional/Character Development Programs , Special Education, Covid-19 & Vaccination Information.

In addition, TFSCS provides annual "Active Shooter Training" to all staff and students. Cal OSHA training is provided annually to all staff .

Fiscal Year 2022-23 Types of Services Funded

The instructional model of Today's Fresh Start Charter School is based on the concept of teachers as facilitators of students' learning and acquisition of knowledge. Administration and teachers work as a collaborative team to design differentiated learning experiences and equal access to the curriculum for all students and all subgroups: African American, Latino, Socioeconomically Disadvantaged, English Learners and special needs. As a means of ensuring teachers are prepared to implement strategies aligned with students' individual needs, teachers attend an intensive professional development just prior to the start of each school year, usually in August (dependent on the date of the new start day of school). The length of the intensive professional development is based on available funding, up to ten days. All professional development, prior to school beginning, and during this school year are held in person, unless other directives come from the CDC. On-going weekly professional development continues to be held throughout the school year. TFSCS Transitional Kindergartners, Kindergartners and first through third grade classes have a student to teacher ratio of up to 24 to 1 and grades four through eight are up to 29 to 1 student to teacher ratios. These ratios are subject to change based on the prevailing State required minimum and maximum teacher to student ratios and as available funding for Class Size Reduction and Local Control Funding Formula (LCFF) funding allowances. The current student to teacher ratio is designed to create an environment conducive to student achievement to the individual child's "personal best" through a variety of instructional groupings. With the additional support of paraprofessionals and supplemental staff, the student to adult ratio is reduced, providing opportunities for increased student instructional support and individualized instruction. Again, this additional instructional assistance is as funding allows.

Today's Fresh Start Charter School has an Student Services Team, which consists of Resource Specialists, Counseling staff, and student behavior support specialists. The purpose of the intervention team is to teach positive behavior responses in an effort to minimize office referrals and out-of-school suspensions. There are several considerations made which may be contributors to a student not achieving his/her personal best. Support Team staff is readily available to assist teachers on how they manage student conflict through restorative practices. In 2021-22 TFSCS joined a Cohort of schools to embrace the practice of Positive Behavior and Intervention Support. A school-wide team was composed of: Teachers, Parents, Classified Staff, and an Administrative Coach.

During the summer of 2023, TFSCS offered a 3-week summer bridge program to address learning loss due to the effects of the Covid pandemic. Students also received breakfast and lunch during this session. Enrichment activities such as music, drums, and Salsa were added at the beginning of the 2022-23 school year.

Small group instructors were provided classroom teachers to allow for greater differentiated instruction from the teachers for students who are struggling. These small groups contain a maximum of 5 students in each group to allow for concentration on in-depth instruction on writing process, academic vocabulary, and mathematical practices. TFSCS partnered with WestED to conduct and analyze school climate surveys for students, staff, and parents. In order to provide more social-emotional support for students and their families, additional School Counselors were hired.

Parents are always welcome! Teachers and administration have regular parent meetings via Zoom wherein the subject matter to be discussed (such as bullying, taunting and teasing) is uniform in all classrooms. Individual parent meetings are conducted monthly for parents of students with chronic absences.
