2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Ranchos Middle School resides in a state-of-the-art facility adjacent to Liberty High School. The school is located in a rural, residential area 10 miles east of the city of Madera and 10 miles northwest of the city of Fresno. The Golden Valley Unified School District was established in 1998 and is led by a five-person school board. Webster Elementary School, Sierra View Elementary School, and Stonecreek Elementary School are the sites in the school district from which Ranchos Middle School receives its student body. Inter-district transfer students contribute to the student population. Students from Ranchos Middle School promote after 8th grade to Liberty High School. Currently, Ranchos Middle School has 400 students in 7th and 8th grade enrolled for the 2023-2024 school year.

School Vision

Ranchos Middle School's vision originates from Golden Valley Unified's mission of ensuring rigorous learning for all students.

? RMS ensures that: Lessons will be challenging, rigorous, and success will be measured by participation and growth.

? There will be clear expectations, consistent guidance, and an encouraging atmosphere with respectful relationships to create a safe learning environment, It is through professional learning communities that RMS staff will ensure continuous collaboration to foster our growth and success.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered “ineffective” under ESSA)

Permits and Waivers	0.00	1.00
Misassignments	0.00	1.80
Vacant Positions	0.00	0.00
Total Teachers Without Credentials and Misassignments	0.00	2.80

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Credentialed Teachers Assigned Out-of-Field (considered “out-of-field” under ESSA)

Indicator	2020-21	2021-22
Credentialed Teachers Authorized on a Permit or Waiver	0.00	0.00
Local Assignment Options	0.00	0.00
Total Out-of-Field Teachers	0.00	0.00

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Class Assignments

Indicator	2020-21	2021-22
Misassignments for English Learners (a percentage of all the classes with English learners taught by teachers that are misassigned)	0	8.9
No credential, permit or authorization to teach (a percentage of all the classes taught by teachers with no record of an authorization to teach)	7.1	0

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	40	45	42	43	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results					
This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement
Parental and community involvement is a very important component of the Ranchos Middle School program. The students, teachers, and administration at Ranchos Middle School are very fortunate to have strong support from parents who serve in many ways. Parents serve on School Site Council to provide input on the instructional program and advice on the use of categorical funding. Parents also participate in the RMS Booster organization. Volunteers are readily available to support ongoing school activities. Site administration holds a parent orientation at the beginning of the year to inform parents on how to stay connected to RMS. RMS uses ParentSquare platform to send phone calls, emails, text,s and calendar events with parents. For more information on how to get involved at Ranchos Middle School, please contact Dr. Michael Grossman at 645-3550.

2023-24 School Safety Plan

Ranchos Middle School has a Safe School Plan that is reviewed and updated annually. Plans are reviewed with staff annually often at the beginning of each School Year. Our RMS School Site Council (SSC) approves our Safe School Plan. Emergency drills are conducted to prepare students and staff in the event of an emergency. We strive to maintain a safe, clean, respectful, and orderly school campus that encourages positive attitudes in students and staff. A joint effort between students and staff helps keep the campus clean and litter-free. Site maintenance staff surveys the campus as the first order of business each day. They ensure the campus is clean, presentable, and representative of the priority Golden Valley Unified School Board sets on safety and appearance. Ranchos Middle School's comprehensive safety plan was reviewed and updated in September of 2023 by the RMS faculty. The plan with any changes is approved by the Golden Valley Unified School District Board of Trustees annually.

2020-21 Secondary Average Class Size and Class Size Distribution

This table displays the 2020-21 average class size and class size distribution. Professional Development

Implementing a professional learning community has been the focus of professional development this year and is being implemented district-wide. All teachers have received various training that focuses on running a PLC, deconstructing standards, and creating new strategies to implement in the classroom. Administrative staff monitors the implementation by attending weekly PLC meetings and conducting "Walk-Throughs" every week. The administration will communicate information from the informal walkthrough, via email, conversation, or written note. New staff is trained in these strategies by the administration and department chairs.

GVUSD is adopting a new data management system, Northwest Evaluation System (NWEA) for the 2023-2024 school year. RMS has decided to focus on the NWEA assessments as a key indicator of student success as the assessment will track student growth throughout the year allowing teachers to align their instruction to the student's individual needs. School staff administering the NWEA assessment will attend multiple trainings during the year to learn how to conduct the assessment and analyze the collected student data. Collected data will also be discussed at staff meetings. Department (PLC) meetings are held after school weekly. During these meetings, teachers develop common curriculum maps, breaking down state standards and developing common formative assessments. In addition, we have had planning days for our English and Math departments to continue breaking down standards and creating a guaranteed viable curriculum.

This year we are focusing on our Response to Intervention (RTI). We have introduced a Co-Lab teaching model to 4 classes (ELA 7, ELA 8, Math 7, Math 8) this year to help our students who have not or nearly met state standards in ELA and math. The student rosters are made up of general education students, IEP students and EL students. RMS has dedicated 3 educators to both classes with the expectation that good first instruction is the best intervention. Teachers can use different instructional practices with additional support and work within classroom structures that utilize the additional educators. We are using district benchmarks, School City Rapid Responses, and informal assessments to gauge the success of the program.

We are also incorporating Chromebooks in our classrooms and using Google Apps for Education in the classroom. Professional development in these areas will continue throughout the school year. We promote sharing new ideas among staff and encourage collaboration, not only at the middle school but also at the high school. This allows staff to unite and create a successful secondary experience. The majority of teachers at Ranchos Middle School have attended at least one Google Conference. The Google platform is universally used throughout the school site as a way to deliver the curriculum. Four teachers are piloting Pear Deck as a way to increase student engagement and the teacher's ability to check for understanding. The Pear Deck software interfaces with the Google platform. Site administration continues to use needs assessments performed in August as a way to offer differentiated professional development for staff at Ranchos Middle School.
