2022-2023 School Accountability Report Card

(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Penryn's instructional philosophy is developed around a workshop model (small group instruction-MTSS a multi-tiered support system). Through the workshop model we are able to be responsive and meet the needs of all our students. With this model of teaching, our Penryn team works collaboratively to keep students in the classroom for a majority of the school day. By doing this, students are given the same core instruction as all their peers but we can help support with push in given through staff in our resource department. Again a Multi-Tiered Support System (MTSS).

Penryn is a Positive Behavior Interventions and Support School (PBIS). Positive Behavioral Interventions and Supports (PBIS) is a way for schools to encourage good behavior. With PBIS, children learn about behavior, just as they learn other subjects like math or science. The key to PBIS is prevention, not punishment. We were recognized by the State of California PBIS Coalition for our PBIS programming at Penryn School with the Platinum PBIS Implementation Award for the last 9 years. In 2020 the California PBIS Coalition recognized Penryn School with the "Community Cares" award for our outstanding contribution of support and care during the unprecedented COVID-19 pandemic and resulting disruptions to school.

It is essential that our school fosters a sense of community. We accomplish this with the partnerships and collaboration we have with our community, families, students and business owners.

School Mission Statement

To create 21st century, critical thinking, lifelong learners who are innovative in achieving academic excellence, and to nurture the development of responsible citizens in the community by setting high expectations and scaffolding to meet the needs of all students.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The school district held a public hearing on October 5, 2023 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption.

The table displays information collected in November, 2023 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements

The current Penryn School campus was constructed in 1961 and had the classrooms modernized in the 2005-06 school year. The campus is comprised of 12 classrooms, three portable classrooms, a library, a multipurpose room, a staff room, an art lab, and a playground. School facilities are all up-to-date, clean, safe, and provide adequate space for students and staff. Over the summer of 2013 and 2014, the school's front courtyard was developed and beautified with new concrete, benches, and landscaping. The summer of 2018 new air condition units were put in along with an AC unit in our MPR. The summer of 2018 the school was painted. Summer of 2022 what was the computer lab was renovated and turned into an Art/Makerspace, courtesy of the Penryn PTC. The Summer of 2023, the Penryn PTC then renovated the existing library with new floors, paint, shelves, furniture and technology.

B. Pupil Outcomes	State Priority: Pupil Achievement The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4): Statewide Assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities). The CAASPP System encompasses the following assessments and student participation requirements: Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve). College and Career Ready The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.
-------------------	--

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Parents and the community are very supportive of the educational program at Penryn School. Parents are very active at the school site, participating in the Parent-Teacher Club (PTC) and serving as volunteers in the classroom, middle school enrichment program, library, office, for school events, field trips, playground and etc. The PTC provides support to individual classrooms, as well as school wide programs. For additional information, please visit the Penryn PTC website at penrynptc.com.

The Principal conducts quarterly "Coffee with Cara" to involve families and connect them to school. The topics are driven by the community and their needs. The agenda is also based on what is relevant at that moment in time.

2023-24 School Safety Plan

The safety of students and staff is a primary concern at Penryn School. The school is always in compliance with all laws, rules, and regulations pertaining to hazardous materials and state earthquake standards. The School Site Safety plan was last reviewed and updated in the Fall of 2022 by the School Safety Committee and Site Council. The school's disaster preparedness plan includes steps for ensuring student and staff safety during a disaster. Fire and disaster drills are conducted on a regular basis throughout the school year. Shelter in place drills are held three times a year. Students are supervised before and after school and during recess by teachers and paraprofessionals. Yard Duty Supervisors monitor students during lunch recess. All visitors must sign in at the school office, obtain a visitor's pass and sign out upon leaving.

Our Safety Plan was reviewed with our School Site Council Team on October 24, 2022 and was approved at our October 25th meeting. The plan was then presented to the staff on October 31st and approved.

Professional Development

As part of the professional growth process, opportunities for training and staff development are provided at both the district and individual school sites to administrators, teachers, certificated and classified staff. The district offers three staff development days during the school years. During these staff development days staff members are offered professional growth opportunities to expand staff knowledge in curriculum, assessment and instructional strategies.

Penryn continues to send staff members to Teacher's College to establish and strengthen our Writers Workshop program at Penryn. This allows them to enrich and broaden their units of study and areas of focus for writing and language arts. We also set aside time during our weekly staff meetings to share and review our writing program. This allows us to make adjustments to the program as needed for students.

We have shifted a majority of our professional development and instructional focus to math. We are finding ways in which we are successful in our writing workshop program and using those same structures for math. We are spending time collaborating with vertical teams to see what concepts are needed for the following years in math. We have looked at, and continue to look at, scope and sequence, foundational concepts and at data, to find the trends which will enable us to see the concepts students are not grasping year after year. To help build a stronger and more rigorous math program, a site team attended California Mathematics Council Conference in Monterey in December of 2019. This allowed the team to then bring their learnings back to the rest of our staff.

Our TK-2nd grade team will attend the California Kindergarten Conference in the winter. This will help their team to develop, grow and refine their instructional practices, along with providing training around phonics, number science, child development and even allow them to collaborate with other primary teachers. This helps our team to stay relevant with our instructional practices.

We established our PBIS (Positive Behavior Intervention Supports) program at Penryn in 2013. We continue to attend professional development for our PBIS leadership team through state conferences, booster trainings and district wide professional development.

With all programs at Penryn we monitor and support our programs through academic conferences (teacher-principal meetings), PLC (professional learning communities), district wide CLTs (curriculum Leadership team) coaching and working with staff. We also bring consultants in for mentoring and coaching with staff.

For new teachers, the district supports them through the statewide BTSA (Beginning Teacher Support and Assessment) program where they work with an expert teacher to help mentor and guide them through their first two years.

Currently we have a peer mediator program where students support their peers on campus and the playground to help solve problems or situations that might arise. We also have a Penryn PALS program and club. These students welcome new families and students to Penryn School.
