Principal's Message

Mountain View Elementary School is located in the southeastern corner of the city of Ontario in Southern California. Ontario thrives with booming industry, ever-increasing employment opportunities, prime residential real estate, and a close proximity to recreation and entertainment venues. Ontario's easily accessible location via three major freeways, two rail lines and an international airport has been a key factor in the city's dynamic growth. In addition, the city's five recreation and community centers are home to numerous activities, classes and programs geared toward the development of the family and individual minds, young and old alike.

The purpose of the School Accountability Report Card (SARC) is to provide parents and the community with information about the school's instructional programs, academic achievement, materials, facilities and the staff. Information about Mountain View School District is also provided.

Parents and the community play a very important role in our school. Understanding the school's educational programs, student achievement, and curriculum development can assist both school and community in on-going program development.

Mountain View Elementary School has a staff that is driven and dedicated to providing a welcoming, stimulating, and safe learning environment where our Eagles thrive in all areas: academically, socially and emotionally. We regularly celebrate students individually and collectively for meeting our expectations and excelling in a variety of categories. Each student is a unique person who has an individual pathway to greatness, and it is our job to help them on that journey.

Students' success is our priority; there is nothing more powerful than an engaged and collaborative connections between home and school to help students thrive. We ask students to come to school each day ready to learn and be effective. We encourage students on a daily basis to follow our school motto and SOAR: Safe; Organized; Accountable; Respectful.

School Mission Statement

Mountain View Elementary School promotes high academic expectations and a willingness to explore new ideas to ensure student success. We are committed to a high degree of collaborative effort among school, home and community.

School Vision Statement

Mountain View focuses on creating a positive and rigorous learning environment by nurturing creativity, curiosity and critical thinking to promote a prosperous future for all students.

Enrollment by Student Group

The total enrollment at the school was 537 students for the 2022-23 school year. The pie chart displays the percentage of students enrolled in each group.

School Accountability Report Card

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

District Mission Statement

Mountain View School District (MVSD) is a school community whose members focus on the whole child: ensuring each child is safe, that each child's needs are met and that each child is provided an education of the highest quality.

Our continuing mission at Mountain View School District is to provide a foundation for sustained educational excellence for students and staff by setting clear goals and high expectations in a safe and trusting environment that supports individual success.

Class Size Distribution

The bar graphs display the three-year data for average class size, and the table displays the three-year data for the number of classrooms by size. The number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Professional Development

All training for curriculum development at Mountain View School District revolves around the California State Standards and Frameworks. Topics for training are determined by teacher need and feedback from teachers and administrators and focus on priorities indicated in the Local Control and Accountability Plan (LCAP).

The principal provides site-based staff development during monthly staff development meetings based on site need and priorities as determined in the Single Plan for Student Achievement (SPSA). Funding sources include Title I, Title II, Educator Effectiveness, and Local Control Funding Formula (LCFF). Other educational opportunities, including conferences and workshops, are afforded to teachers and grade levels/departments based on need. Many teachers improve their skills and knowledge of the curriculum by continuing their education through workshops.

Professional development days are cumulative district days, not individual teacher days.

For the 2022-23 school year, the focus was on providing professional development to support students' social and emotional needs. All elementary teachers in K-6 and junior high social studies teachers were provided training in violence and substance prevention through an evidence-based comprehensive program (Mendez Foundation's Too Good for Violence and Too Good for Drugs). Elementary teachers in TK-6 and junior high English language arts and mathematics teachers were provided i-Ready training regarding instructional groupings and additional components of i-Ready. Ongoing training throughout the year focused on the areas of mathematics and further implementation of NGSS.

For the 2023-24 school year, the focus was on providing professional development to support English language arts and mathematics with additional training to support our English learner students. Elementary teachers in TK-6 and junior high English language arts and mathematics teachers were provided i-Ready training regarding motivation, utilizing available data and additional components of i-Ready. All district teachers were offered training in ELlevation, a program that supports English learner students. Ongoing training throughout the year will focus on mathematics.

California Physical Fitness Test

Each spring, all students in grades 5, 7 and 9 are required to participate in the California Physical Fitness Test (PFT). The Fitnessgram is the designated PFT for students in California public schools put forth by the State Board of Education. Due to changes to the 2021–22 and 2022–23 PFT administration, only participation results are required for the five fitness areas.

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the Fitnessgram. The table shows the percentage of students participating in each of the five fitness components for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf.

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System) includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade 10, 11 or 12).

CAASPP Test Results in Science for All Students

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP—California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8 and once in high school (i.e., grade 10, 11 or 12).

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The “percentage met or exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Textbooks and Instructional Materials

Mountain View School District sets a high priority upon ensuring sufficient and current textbooks and materials are available to support our school's instructional program and on providing our students with textbooks in the core subject areas.

The district held a public hearing in September 2023, and determined that each school within the district has sufficient, good-quality textbooks and instructional materials pursuant to the settlement of *Eliezer Williams, et al., vs. State of California, et al.* All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. A committee consisting of administrators and teachers establishes selection criteria based on state standards, reviews instructional materials on the state list, and makes recommendations to the board of trustees for final adoption. The district affords stakeholders and staff (including teachers) the opportunity to carefully review the available textbook options.

Parental Involvement

Parent participation and involvement is an integral part of student success at Mountain View Elementary School. A highly active Parent Teacher Organization (PTO) coordinates many activities, programs and events that directly help support the school's instructional programs. PTO members provide a true sense of community purpose and direction centered on the education of the students at Mountain View Elementary School. Fundraisers support field trips, assemblies and student incentives. The school keeps parents informed of activities and events through monthly newsletters, regular social media posts, ClassTag messages, email and phone announcements, the marquee and regular teacher communications. The school also appreciates community support and donations from local businesses. In addition, parents are encouraged to participate in our regular School Site Council meetings. The School Site Council is a collaborative leadership group composed of the school principal, teachers, classified staff and parent volunteers. The council meets regularly throughout the school year and is tasked with creating and monitoring the School Plan for Student Achievement (SPSA) and related budget that funds school programs.

Parents who wish to participate in Mountain View Elementary School's leadership teams, school committees, school activities or who want to become a volunteer may contact the school office at (909) 947-3516.

Quality of Textbooks

2023-24 School Year

Criteria	Yes/No
Are the textbooks adopted from the most recent state-approved or local governing-board-approved list?	Yes

Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

School Facility Good Repair Status

The table shows the results of the school's most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. This inspection determines the school facility's good repair status using ratings of good condition, fair condition or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair or poor.

School Facility Good Repair Status		2023-24 School Year
Items Inspected		Repair Status
Systems: Gas leaks, sewer, mechanical systems (heating, ventilation and HVAC)		Good
Interior: Interior surfaces (floors, ceilings, walls and window casings)		Good
Cleanliness: Pest/vermin control, overall cleanliness		Good
Electrical: Electrical systems		Good
Restrooms/fountains: Restrooms, sinks and drinking fountains		Good
Safety: Fire safety, emergency systems, hazardous materials		Good
Structural: Structural condition, roofs		Good
External: Windows/doors/gates/fences, playgrounds/school grounds		Good
Overall summary of facility conditions		Exemplary

Deficiencies and Repairs

The table lists the repairs required for all deficiencies found during the site inspection. Regardless of each item's repair status, all deficiencies are listed.

Deficiencies and Repairs		2023-24 School Year
Items Inspected	Deficiencies and Action Taken or Planned	Date of Action
Structural	Main building roof needs repair. Roof is scheduled for replacement.	Summer 2024

School Safety

The Emergency Preparedness Plan includes steps for ensuring student and staff safety during a disaster. Campus safety is the No.1 priority at Mountain View Elementary School. The school principal conducts earthquake, fire and other emergency drills on a regular monthly basis in accordance with the site disaster plan.

Emergency supplies, such as food, water and rescue equipment, are housed on campus.

The Emergency Preparedness Plan is reviewed and revised annually and approved at the October/November board meetings every year. It was most recently reviewed, updated and discussed with school faculty in October & November 2023.

The Emergency Preparedness Plan was designed to assist in preparing for emergencies, managing emergency response efforts and maintaining a safe school environment. The plan requires identification of security needs, development of prevention and intervention techniques, evaluation of physical facilities, and communication with staff and students. Components of the School Site Safety Plan include strategies and programs that will provide and maintain a high level of school safety, training for staff, and address procedures related to the compliance of existing laws as they affect school safety.

"Mountain View Elementary School has a staff that is driven and dedicated to providing a welcoming, stimulating, and safe learning environment where our Eagles thrive in all areas: academically, socially and emotionally."

School Facilities

Mountain View Elementary School provides a safe, clean environment for students, staff and volunteers. The school is situated on 11 acres. School facilities were built in 1963, spanning approximately 56,000 square feet and include the library, multipurpose room, 27 permanent classrooms, 11 portable classrooms, a school library and playground. Modernizations were made in 1977 and 2004. A local bond provided funding for new construction and updating facilities at the school. A permanent wing containing eight classrooms and two special education classes offered through the county replaced some portable classrooms. The facility strongly supports teaching and learning through its ample classroom and playground space and staff resource room.

Safety: The safety of students and the staff is a primary concern of Mountain View Elementary School. The school is a closed campus. All visitors must check in at the office and wear identification badges while on school grounds. During recess, lunch, and before and after school, teachers and classified staff monitor the campus to ensure student safety throughout the school day.

Cleaning Process: A team of four custodians cleans and/or sanitizes classrooms, restrooms and the campus grounds on a daily basis. A scheduled maintenance program is administered by the Mountain View School District to ensure all classrooms and facilities are well maintained and provide a suitable learning environment.

Maintenance and Repair: District and school maintenance staff make necessary repairs in a prompt and timely manner to keep the school in good working order. At the time this report was published, 100% of restrooms on campus were in good working order. A work-order process is used to maintain efficient service and give emergency repairs the highest priority. There is a planned roofing and air-conditioning replacement project planned for the summer of 2024.

Throughout the years, the district has conducted major as well as minor maintenance projects to address fields, irrigation, playground surfaces, parking lot surfaces and exterior building improvements such as painting and other repairs. Major facility maintenance and improvement projects are currently being paid through general obligation (GO) bonds.

Teacher Preparation and Placement

The teacher data displayed in this SARC is from the 2020-21 and the 2021-22 school years. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included. These tables display the number and percent of teacher authorization/assignment as well as the total number and percent of teaching positions at the school, district and state levels. For questions concerning the assignment of teachers outside their subject area of competence or the credential status of teachers, visit the California Commission on Teacher Credentialing website at <https://www.ctc.ca.gov/>.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The data source is the California State Assignment Accountability System (CalSAAS) provided by the Commission on Teacher Credentialing. For information on the CalSAAS, visit the CALPADS web page at <https://www.cde.ca.gov/ds/sp/cl/calpadsupdfdash201.asp>.
