Principal's Message

Grace Yokley Junior High School enjoys a proud history of academic excellence and high expectations for all students. What makes our school successful is the tremendous support and dedication of our staff, students and community. We believe knowledge is key—knowledge of the workplace, knowledge of our resources, and knowledge of ourselves provide the perspective necessary as we collaborate to meet the needs of our students.

The staff at Grace Yokley Junior High School continues to be committed to providing the best educational programs possible for our students. The excellent qualities of our academic and enrichment programs are reflections of our highly talented and capable faculty. They are dedicated to ensuring Grace Yokley School (GYS) is a welcoming, stimulating environment, actively involving students through academic instruction as well as helping students form positive values, make analytical judgments, and think critically and creatively. Through hard work and high expectations, our students are challenged to reach their maximum potential. We work closely with our local high school to ensure students are offered similar courses. Grace Yokley currently operates and functions under a junior high school model. Our campus is home to seventh- and eighth-grade students, a transition from our middle school model in years past.

Our parents are the backbone of our students' success. They enthusiastically encourage the academic excellence of their children and help with our many activities throughout the year.

Our students not only excel academically, but also grow in the areas of respect, responsibility, positive relationships and leadership. GYS students understand that the depth of their character measures their success, as much as, it is by their grades and test scores.

School Mission Statement

The mission of Grace Yokley Junior High is to provide our students a safe and respectful learning environment with rigorous and relevant curriculum that will empower them to achieve social and academic success.

Parental Involvement

Staff members, parents and students participate on various committees that make decisions regarding the priorities and direction of the educational plan to ensure instructional programs are consistent with student needs and comply with district goals:

- School Site Council (SSC)
- English Learner Advisory Committee (ELAC)
- Individual Education Plan Teams
- Parent Teacher Student Association (PTSA)
- School Site Leadership Team
- Multi-Tiered System of Support Teams (MTSS) Student Study Teams
- District English Learner Advisory Committee (DELAC)
- Wellness Committee
- Associated Student Body (ASB)
- Student Council
- Local Control and Accountability Plan (LCAP) Stakeholder/Parent Advisory Committee (S/PAC)
- Safety Plan Committee
- Professional Learning Communities (PLC)
- Parent volunteers

Parent participation and involvement is an integral part of student success at Grace Yokley Junior High School. A highly active PTSA coordinates many activities, programs and events that directly help support the school's instructional program. They provide a true sense of community purpose and direction centered on the education of the students at Grace Yokley School. Fundraisers support field trips, assemblies and student incentives. A large group of volunteers augments classroom instruction.

Parents who wish to participate in Grace Yokley School's leadership teams, school committees, school activities or become a volunteer may contact GYS front office at (909) 947-6774.

*School Motto: GYS panthers are focused students built on the foundation of integrity.
We are engaged individuals that are part of a respectful community of empowered scholars.*

School Accountability Report Card

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

District Mission Statement

Mountain View School District (MVSD) is a school community whose members focus on the whole child: ensuring each child is safe, that each child's needs are met and that each child is provided an education of the highest quality.

Our continuing mission at Mountain View School District is to provide a foundation for sustained educational excellence for students and staff by setting clear goals and high expectations in a safe and trusting environment that supports individual success.

Enrollment by Student Group

The total enrollment at the school was 636 students for the 2022-23 school year. The pie chart displays the percentage of students enrolled in each group.

Class Size Distribution

The bar graph displays the three-year data for average class size, and the table displays the three-year data for the number of classrooms by size. The number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Professional Development

All training for curriculum development at Mountain View School District revolves around the California State Standards and Frameworks. Topics for training are determined by teacher need and feedback from teachers and administrators and focus on priorities indicated in the Local Control and Accountability Plan (LCAP).

The principal provides site-based staff development during monthly staff development meetings based on site need and priorities as determined in the Single Plan for Student Achievement (SPSA). Funding sources include Title I, Title II, Educator Effectiveness, and Local Control Funding Formula (LCFF). Other educational opportunities, including conferences and workshops, are afforded to teachers and grade levels/departments based on need. Many teachers improve their skills and knowledge of the curriculum by continuing their education through workshops.

Professional development days are cumulative district days, not individual teacher days.

For the 2022-23 school year, the focus was on providing professional development to support students' social and emotional needs. All elementary teachers in K-6 and junior high social studies teachers were provided training in violence and substance prevention through an evidence-based comprehensive program (Mendez Foundation's Too Good for Violence and Too Good for Drugs). Elementary teachers in TK-6 and junior high English language arts and mathematics teachers were provided i-Ready training regarding instructional groupings and additional components of i-Ready. Ongoing training throughout the year focused on the areas of mathematics and further implementation of NGSS.

For the 2023-24 school year, the focus was on providing professional development to support English language arts and mathematics with additional training to support our English learner students. Elementary teachers in TK-6 and junior high English language arts and mathematics teachers were provided i-Ready training regarding motivation, utilizing available data and additional components of i-Ready. All district teachers were offered training in ELlevation, a program that supports English learner students. Ongoing training throughout the year will focus on mathematics.

California Physical Fitness Test

Each spring, all students in grades 5, 7 and 9 are required to participate in the California Physical Fitness Test (PFT). The Fitnessgram is the designated PFT for students in California public schools put forth by the State Board of Education. Due to changes to the 2021–22 and 2022–23 PFT administration, only participation results are required for the five fitness areas.

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the Fitnessgram. The table shows the percentage of students participating in each of the five fitness components for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf.

- Lottery: Unrestricted
- Low Performing Student Block Grant
- Learning Loss Mitigation Funds

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade 10, 11 or 12).

CAASPP Test Results in Science for All Students

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP—California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8 and once in high school (i.e., grade 10, 11 or 12).

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The “percentage met or exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Textbooks and Instructional Materials

Mountain View School District sets a high priority upon ensuring sufficient and current textbooks and materials are available to support our school's instructional program and on providing our students with textbooks in the core subject areas.

The district held a public hearing in September 2023, and determined that each school within the district has sufficient, good-quality textbooks and instructional materials pursuant to the settlement of *Eliezer Williams, et al., vs. State of California, et al.* All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. A committee consisting of administrators and teachers establishes selection criteria based on state standards, reviews instructional materials on the state list, and makes recommendations to the board of trustees for final adoption. The district affords stakeholders and staff (including teachers) the opportunity to carefully review the available textbook options.

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Facility Good Repair Status

The table shows the results of the school's most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. This inspection determines the school facility's good repair status using ratings of good condition, fair condition or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair or poor. At the time of this school facility inspection, no deficiencies were found.

School Facilities

Grace Yokley Junior High School provides a safe, clean environment for students, staff and volunteers. The school is situated on 20 acres. The original school facilities were built in 1982 and eventually spanned to approximately 65,000 square feet. Over time, the school grew to include a library, a multipurpose room, 38 permanent classrooms, eight portable classrooms, one computer labs, a gym and athletic field. Modernizations to the school were made in 2004 and included the replacement of 16 portable classrooms with a two-story math and science building, which consists of science labs and classrooms; and a gymnasium and stage complex, which includes boys' and girls' locker rooms, and rehearsal classroom for band. Additional projects include the expansion of the library, a new lunch patio, and renovation of administrative offices. The facility strongly supports teaching and learning through its ample classroom, athletic space, and a staff resource room. In 2022-23, air conditioning systems were added to locker rooms and the athletic field was fully renovated.

Safety: The safety of students and staff is a primary concern of Grace Yokley Junior High. The school is a closed campus; all visitors must sign in at the office and wear identification badges while on school grounds. Before school, during lunch and after school, adult supervision is provided by administration, teachers and classified staff to ensure safety of the students throughout the school day.

Cleaning Process: A team of custodians ensures classrooms, restrooms and campus grounds are kept clean, sanitized and safe. A scheduled maintenance program is administered by the Mountain View School District to ascertain all classrooms and facilities are well maintained and provide a suitable learning environment.

Maintenance and Repair: District and school maintenance staffs make necessary repairs in a prompt and timely manner to keep the school in good working order. At the time this report was published, 100% of restrooms on campus were in good working order. We use a work-order process to maintain efficient repair service and give emergency repairs the highest priority.

School Facility Improvements: Recent improvements include the addition of air conditioning in the locker rooms; a full field repair project; new roofing along half of the main building; repaving and restriping of our parking lots and play areas; various painting projects; new planters and landscaping; an enhanced food-services department with additional food and supply storage; and modernization of technology equipment including computers, digital projectors, document cameras in every class-room, a class set of iPads, and 1:1 Chromebooks available for each student.

Major facility maintenance and improvement projects are currently being paid through general obligation (GO) bonds.

School Safety

The school sends the Emergency Preparedness Plan home to parents at the beginning of each school year. The plan includes steps for ensuring student and staff safety during a disaster. Campus

safety is top priority. The school principal conducts earthquake, fire, lockdown and civil-defense emergency drills on a regular basis in accordance with the site disaster plan. The school contains emergency supplies: food, water and rescue equipment.

The School Site Safety Plan was adopted and implemented in December 1998. It is reviewed and revised annually and is approved at the October/November board meetings every year. It was most recently reviewed, updated and discussed with school faculty in September 2023.

The school designed its School Site Safety Plan to assist in preparing for emergencies, managing emergency response efforts and maintaining a safe school environment. The plan requires identification of security needs, development of prevention and intervention techniques, evaluation of physical facilities, and communication with staff and students. Components of the School Site Safety Plan include strategies and programs that will provide and maintain a high level of school safety, assess current school crime occurring on campus and at school functions, and address

procedures related to the compliance of existing laws as they affect school safety.

Teacher Preparation and Placement

The teacher data displayed in this SARC is from the 2020-21 and the 2021-22 school years. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included. These tables display the number and percent of teacher authorization/assignment as well as the total number and percent of teaching positions at the school, district and state levels. For questions concerning the assignment of teachers outside their subject area of competence or the credential status of teachers, visit the California Commission on Teacher Credentialing website at <https://www.ctc.ca.gov/>.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The data source is the California State Assignment Accountability System (CalSAAS) provided by the Commission on Teacher Credentialing. For information on the CalSAAS, visit the CALPADS web page at <https://www.cde.ca.gov/ds/sp/cl/calpadsupdfdash201.asp>.

Supplemental/restricted expenditures come from money whose use is controlled by law or by a donor. Money that is designated for specific purposes by the district or governing board is not considered restricted. Basic/unrestricted expenditures are from money whose use, except for general guidelines, is not controlled by law or by a donor.

Data for this year's SARC was provided by the California Department of Education and school and district offices. For additional information on California schools and districts and comparisons of the school to the district, the county and the state, please visit DataQuest at <http://dq.cde.ca.gov/dataquest>. DataQuest is an online resource that provides reports for accountability, test data, enrollment, graduates, dropouts, course enrollments, staffing and data regarding English learners. Per Education Code Section 35256, each school district shall make hard copies of its annually updated report card available, upon request, on or before February 1.

All data accurate as of January 2024.
