Principal's Message

Creek View Elementary School has a tradition of high expectations for academic achievement and social development. The Creek View learning community has achieved our success through the support of staff, students, and parents. Our staff meets regularly to ensure our educational program is aligned with state content standards and provides students with both intervention and enrichment activities.

We have made a commitment to provide the best educational program possible for our students. The excellent quality of our program reflects our highly committed staff. We are dedicated to ensuring Creek View Elementary School is a welcoming, stimulating environment where students are actively involved in learning academics as well as positive values. Through our hard work together, our students are challenged to reach their maximum potential.

Creek View Elementary School believes cooperation between school and community is imperative and is reflected in our philosophy and school mission statement.

School Mission Statement

Creek View is a community of learners with high expectations for character and academic achievement. We strive to provide an environment where all of our students are STARS.

Be a **STAR**:

Safety First

Take Responsibility

Achieve Excellence

Respect Always

School Accountability Report Card

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

District Mission Statement

Mountain View School District (MVSD) is a school community whose members focus on the whole child: ensuring each child is safe, that each child's needs are met and that each child is provided an education of the highest quality.

Our continuing mission at Mountain View School District is to provide a foundation for sustained educational excellence for students and staff by setting clear goals and high expectations in a safe and trusting environment that supports individual success.

School Safety

Safety of students and staff is a primary concern at Creek View Elementary School. The school is a closed campus. All visitors must check in at the school office and wear identification badges while on school grounds. All volunteers must undergo a volunteer registration process including a volunteer training. During recess, lunch, and before and after school we have administrators, teachers, and classified staff members monitor the campus to ensure student safety throughout the school day.

We send the Emergency Preparedness Plan home to parents at the beginning of each school year. The plan includes steps for ensuring the safety of students and staff during a disaster. The school conducts earthquake, fire, lockdown and other emergency drills on a regular monthly basis in accordance with the site disaster plan. Each classroom contains emergency supplies and first-aid kits. Food, water, and rescue equipment are kept in a central location for any emergency.

The School Site Safety Plan was adopted and implemented in December 1998. It is reviewed and revised where necessary annually and is approved at the October/November board meetings every year. It was most recently reviewed, updated, and discussed with school faculty in September 2023. The School Site Safety Plan was designed to assist in preparing for emergencies, managing emergency response efforts and maintaining a safe school environment.

The plan requires identification of security needs, development of prevention and intervention techniques, evaluation of physical facilities, and communication with staff and students. Components of the School Site Safety Plan include strategies and programs that provide and maintain a high level of school safety, an assessment of current school crime occurring on campus and at school functions and procedures related to the compliance of existing laws as they affect school safety. Safety procedures and elements of the School Site Safety Plan are reviewed with staff annually at the start of every school year.

Enrollment by Student Group

The total enrollment at the school was 550 students for the 2022-23 school year. The pie chart displays the percentage of students enrolled in each group.

Class Size Distribution

The bar graph displays the three-year data for average class size, and the table displays the three-year data for the number of classrooms by size. The number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Professional Development

All training for curriculum development at Mountain View School District revolves around the California State Standards and Frameworks. Topics for training are determined by teacher need and feedback from teachers and administrators and focus on priorities indicated in the Local Control and Accountability Plan (LCAP).

The principal provides site-based staff development during monthly staff development meetings based on site need and priorities as determined in the Single Plan for Student Achievement (SPSA). Funding sources include Title I, Title II, Educator Effectiveness, and Local Control Funding Formula (LCFF). Other educational opportunities, including conferences and workshops, are afforded to teachers and grade levels/departments based on need. Many teachers improve their skills and knowledge of the curriculum by continuing their education through workshops.

Professional development days are cumulative district days, not individual teacher days.

For the 2022-23 school year, the focus was on providing professional development to support students' social and emotional needs. All elementary teachers in K-6 and junior high social studies teachers were provided training in violence and substance prevention through an evidence-based comprehensive program (Mendez Foundation's Too Good for Violence and Too Good for Drugs). Elementary teachers in TK-6 and junior high English language arts and mathematics teachers were provided i-Ready training regarding instructional groupings and additional components of i-Ready. Ongoing training throughout the year focused on the areas of mathematics and further implementation of NGSS.

For the 2023-24 school year, the focus was on providing professional development to support English language arts and mathematics with additional training to support our English learner students. Elementary teachers in TK-6 and junior high English language arts and mathematics teachers were provided i-Ready training regarding motivation, utilizing available data and additional components of i-Ready. All district teachers were offered training in ELlevation, a program that supports English learner students. Ongoing training throughout the year will focus on mathematics.

California Physical Fitness Test

Each spring, all students in grades 5, 7 and 9 are required to participate in the California Physical Fitness Test (PFT). The Fitnessgram is the designated PFT for students in California public schools put forth by the State Board of Education. Due to changes to the 2021–22 and 2022–23 PFT administration, only participation results are required for the five fitness areas.

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the Fitnessgram. The table shows the percentage of students participating in each of the five fitness components for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf.

- Learning Loss Mitigation Funds

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade 10, 11 or 12).

CAASPP Test Results in Science for All Students

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP—California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8 and once in high school (i.e., grade 10, 11 or 12).

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The “percentage met or exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Textbooks and Instructional Materials

Mountain View School District sets a high priority upon ensuring sufficient and current textbooks and materials are available to support our school's instructional program and on providing our students with textbooks in the core subject areas.

The district held a public hearing in September 2023, and determined that each school within the district has sufficient, good-quality textbooks and instructional materials pursuant to the settlement of *Eliezer Williams, et al., vs. State of California, et al.* All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. A committee consisting of administrators and teachers establishes selection criteria based on state standards, reviews instructional materials on the state list, and makes recommendations to the board of trustees for final adoption. The district affords stakeholders and staff (including teachers) the opportunity to carefully review the available textbook options.

Quality of Textbooks

The following table outlines the criteria required for choosing textbooks and instructional materials.

Quality of Textbooks		2023-24 School Year
Criteria		Yes/No
Are the textbooks adopted from the most recent state-approved or local governing-board-approved list?		Yes

Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Facilities

Creek View Elementary School provides a safe, clean environment for students, staff and volunteers. The school is situated on 12.5 acres. School facilities were built in 1985, span 53,000 square feet, and presently include the library, multipurpose room, 16 permanent classrooms, 25 portable classrooms, one computer lab and playground, which are all up-to-date and provide adequate space for students and staff. Modernizations were made in 1987, 1999, 2004 and 2016. A local bond, passed by voters, provides funding for new construction and updating of the facilities at the school. The facility strongly supports teaching and learning through its staff resource room, classrooms, and playground space. Teachers and staff monitor arrival and dismissal times and Proctors supervise students during lunch and recess times.

Cleaning Process: A team of three custodians cleans classrooms, restrooms and campus grounds on a daily basis. The Mountain View School District administers a scheduled maintenance program to ensure all classrooms and facilities are well maintained and provide a suitable learning environment.

Maintenance and Repair: District and school maintenance staff make necessary repairs in a prompt and timely manner to keep the school in good working order. We use a work-order process to ensure efficient service and that emergency repairs are given the highest priority.

Major facility maintenance and improvement projects are currently being paid through general obligation (GO) bonds.

"Creek View Elementary School has a tradition of high expectations for academic achievement and social development."

Parental Involvement

Parent participation is an integral part of student success at Creek View Elementary School. A highly active Parent Teacher Organization (PTO) coordinates many activities, programs and events that directly support the school's instructional program. PTO members provide a true sense of community purpose and direction centered on the education of students at Creek View Elementary School. Fundraisers support field trips, assemblies and student incentives. A large group of parent volunteers augments classroom instruction.

Parents are invited to monthly Coffee with the Principal Meetings. During these meetings, the principal shares important updates, provides tips and strategies for parent support and gathers input from parents.

The school uses all available resources in the community to assist students in their emotional and academic development. Creek View Elementary School receives support from Target, Miguel's Jr., John's Incredible Pizza Company, In-N-Out Burger, Ruby's Diner and Farmer Boys.

Parents who wish to participate in Creek View Elementary School's PTO, School Site Council (SSC), English Learner Advisory Committee (ELAC), other school committees or would like to become a volunteer may contact Principal Amanda Colon or the PTO President at (909) 947-8385.

Teacher Preparation and Placement

The teacher data displayed in this SARC is from the 2020-21 and the 2021-22 school years. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included. These tables display the number and percent of teacher authorization/assignment as well as the total number and percent of teaching positions at the school, district and state levels. For questions concerning the assignment of teachers outside their subject area of competence or the credential status of teachers, visit the California Commission on Teacher Credentialing website at <https://www.ctc.ca.gov/>.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The data source is the California State Assignment Accountability System (CalSAAS) provided by the Commission on Teacher Credentialing. For information on the CalSAAS, visit the CALPADS web page at <https://www.cde.ca.gov/ds/sp/cl/calpadsupdfdash201.asp>.
