Principal's Message

Ranch View Elementary School is located in the southeastern corner of the city of Ontario, one of the largest growing cities in Southern California. Ontario thrives with booming industry, ever-increasing employment opportunities, prime residential real estate, and a close proximity to recreation and entertainment venues. Ontario's easily accessible location via three major freeways, two rail lines and an international airport has been a key factor in the city's dynamic growth. In addition, the city's five recreation and community centers are home to numerous activities, classes, and programs geared toward the development of the family and individual minds, young and old alike.

The purpose of the School Accountability Report Card (SARC) is to provide parents information about the school's instructional programs, academic achievements, materials, facilities and staff. Information about Mountain View School District is also provided.

We are committed to respecting and valuing each student's unique learning style and personality. Our goal is to provide activities and opportunities that will aid in the development of each student and build in them the ability and desire to become lifelong learners. We strive to provide a classroom environment that will lend itself to student engagement for active learning through whole class, small group, and peer-to-peer learning experiences. It is our endeavor to encourage learning through a positive environment that responds to students through praise for following the expectations for being responsible learners.

We want to ensure that learning be the outcome of teaching that embraces the differences in the way each student learns. It is our goal to reach each individual learner based on their own strengths and weaknesses through incorporating differential instruction to allow each student the opportunity to reach their own academic potential to the fullest extent possible. It is our intention that our students will leave our school and be prepared to meet the challenges of middle school with the skills and concepts they need to become responsible learners and ultimately responsible citizens.

Goals for 2022-23

1. Sustain efforts related to building students' mindset for preventing bullying and promoting kindness.
2. Continue efforts to improve communication between school and home.
3. Increase student mathematics and language arts skills through the weekly use of iReady and strategies acquired during professional development opportunities.
4. Continue to support student academic deficits through targeted interventions.
5. Maintain academic rigor through well-structured lessons with extension activities that support critical thinking and applied learning.

School Mission Statement

Our mission at Ranch View school is to create and maintain a learning environment where all students are challenged, nurtured, and motivated to learn and grow. The priorities include not only academic skills; but also, the social, interpersonal, communicative, and decision-making skills to become informed citizens in our democratic society.

Behavior Statement: We at Ranch View Elementary take responsibility for our academic and behavior goals, we are respectful citizens, and strive to build relationships with others.

Respectful, Orderly, Prepared, Encouraging

Enrollment by Student Group

The total enrollment at the school was 590 students for the 2022-23 school year. The pie chart displays the percentage of students enrolled in each group.

School Accountability Report Card

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

District Mission Statement

Mountain View School District (MVSD) is a school community whose members focus on the whole child: ensuring each child is safe, that each child's needs are met and that each child is provided an education of the highest quality.

Our continuing mission at Mountain View School District is to provide a foundation for sustained educational excellence for students and staff by setting clear goals and high expectations in a safe and trusting environment that supports individual success.

Class Size Distribution

The bar graphs display the three-year data for average class size, and the table displays the three-year data for the number of classrooms by size. The number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Professional Development

All training for curriculum development at Mountain View School District revolves around the California State Standards and Frameworks. Topics for training are determined by teacher need and feedback from teachers and administrators and focus on priorities indicated in the Local Control and Accountability Plan (LCAP).

The principal provides site-based staff development during monthly staff development meetings based on site need and priorities as determined in the Single Plan for Student Achievement (SPSA). Funding sources include Title I, Title II, Educator Effectiveness, and Local Control Funding Formula (LCFF). Other educational opportunities, including conferences and workshops, are afforded to teachers and grade levels/departments based on need. Many teachers improve their skills and knowledge of the curriculum by continuing their education through workshops.

Professional development days are cumulative district days, not individual teacher days.

For the 2022-23 school year, the focus was on providing professional development to support students' social and emotional needs. All elementary teachers in K-6 and junior high social studies teachers were provided training in violence and substance prevention through an evidence-based comprehensive program (Mendez Foundation's Too Good for Violence and Too Good for Drugs). Elementary teachers in TK-6 and junior high English language arts and mathematics teachers were provided i-Ready training regarding instructional groupings and additional components of i-Ready. Ongoing training throughout the year focused on the areas of mathematics and further implementation of NGSS.

For the 2023-24 school year, the focus was on providing professional development to support English language arts and mathematics with additional training to support our English learner students. Elementary teachers in TK-6 and junior high English language arts and mathematics teachers were provided i-Ready training regarding motivation, utilizing available data and additional components of i-Ready. All district teachers were offered training in ELlevation, a program that supports English learner students. Ongoing training throughout the year will focus on mathematics.

California Physical Fitness Test

Each spring, all students in grades 5, 7 and 9 are required to participate in the California Physical Fitness Test (PFT). The Fitnessgram is the designated PFT for students in California public schools put forth by the State Board of Education. Due to changes to the 2021–22 and 2022–23 PFT administration, only participation results are required for the five fitness areas.

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the Fitnessgram. The table shows the percentage of students participating in each of the five fitness components for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf.

- Learning Loss Mitigation Funds

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade 10, 11 or 12).

CAASPP Test Results in Science for All Students

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP—California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8 and once in high school (i.e., grade 10, 11 or 12).

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The “percentage met or exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Textbooks and Instructional Materials

Mountain View School District sets a high priority upon ensuring sufficient and current textbooks and materials are available to support our school's instructional program and on providing our students with textbooks in the core subject areas.

The district held a public hearing in September 2023, and determined that each school within the district has sufficient, good-quality textbooks and instructional materials pursuant to the settlement of *Eliezer Williams, et al., vs. State of California, et al.* All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. A committee consisting of administrators and teachers establishes selection criteria based on state standards, reviews instructional materials on the state list, and makes recommendations to the board of trustees for final adoption. The district affords stakeholders and staff (including teachers) the opportunity to carefully review the available textbook options.

Parental Involvement

Ranch View Elementary School has an open invitation to its community to allow for participation and involvement in contributing to the success of our students. An active Parent Teacher Association (PTA) lends itself to many fundraising activities that provide monetary support to the school's instructional program. The contribution of extra funds goes toward sponsoring field trips, assemblies, technology support, library materials and student incentives.

The community support is also a part of the day-to-day learning environment. Teachers receive ongoing support through parent volunteers who assist in the classroom as needed.

The inclusion of our community is also realized in the active participation in our School Site Council (SSC); our English Learner Advisory Committee (ELAC); our Wellness Committee; and the School Safety Committee. Parents also have the opportunity to provide valuable input through our parent survey in all key areas associated with our school and the social and academic welfare of our students.

For more information on how to become involved, contact Principal Julie Alba or PTA President Melissa Thornton (909) 947-5545.

Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

School Facility Good Repair Status

The table shows the results of the school's most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. This inspection determines the school facility's good repair status using ratings of good condition, fair condition or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair or poor. At the time of this school facility inspection, no deficiencies were found.

School Facilities

Ranch View Elementary School provides a safe and clean environment for students, staff and volunteers. The school is situated on 10 acres. School facilities were built in 1991, span approximately 51,000 square feet, and include the library, computer lab, food-service area, multipurpose room, two permanent classrooms, 36 portable classrooms and a playground, all of which are up-to-date and provide adequate space for students and staff. Modernizations were made in 1993 and 1999. The facility strongly supports teaching and learning through its ample classroom and playground space and a staff resource room.

Safety: The safety of students and staff is a primary concern of Ranch View Elementary School. All entrance gates are secured throughout the day. The school is a closed campus; all visitors must sign in at the office and wear identification badges while on school grounds. During recess, lunch, and before and after school, adult supervision is provided by administration, teachers and classified staff to ensure safety of the students throughout the school day.

Cleaning Process: A team of one full-time maintenance lead, one full-time custodian and one part-time custodian ensure classrooms, restrooms and campus grounds are kept clean and safe. Ranch View visitors often acknowledge how clean and maintained the campus appears.

A scheduled maintenance program is administered by the Mountain View School District to ensure all classrooms and facilities are well maintained and provide a suitable learning environment.

Maintenance and Repair: District and school maintenance staffs make necessary repairs in a prompt and timely manner to keep the school in good working order. The maintenance supervisor and custodial staff take pride in providing the staff and students with a clean campus.

At the time this report was published, 100% of restrooms on campus were in good working order. A work-order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Ranch View Elementary School was enhanced with the following improvements:

1. All school portable exterior walls were painted.
2. All perimeter doors and trim were painted in the main building.
3. All primary grade boys' bathrooms were upgraded with new linoleum flooring.

The Mountain View School Board regards safety of students and staff as a top priority. The front office entrance was reconstructed for a visitor/community entrance, and new front gates were installed. A camera/monitor was added to the front office to ensure ongoing student safety, and parents report/exit through the front office.

School Safety

The Emergency Preparedness Plan is available for parents at the beginning of each school year. The plan includes steps for ensuring student and staff safety during a disaster. Campus safety is the number 1 priority at Ranch View Elementary School. The school principal conducts earthquake, fire, lockdown and other emergency drills monthly in accordance with the site disaster plan. Each year in October, the school participates in The Great California ShakeOut earthquake drill. The campus contains emergency supplies, food, water and rescue equipment.

The Emergency Preparedness Plan was adopted and implemented in December 1998. It is reviewed and revised annually and approved at the October/November board meetings every year. It was most recently reviewed with staff in September 2023 changes that may have been added or deleted. The School Site Safety Plan was designed to assist preparing for emergencies, managing emergency response efforts and maintaining a safe school environment. The plan requires identification of security needs, development of prevention and intervention techniques, evaluation of physical facilities, and communication with staff and students.

Components of the Emergency Preparedness Plan include strategies and programs that will provide and maintain a high level of school safety, assess current school crime occurring on campus and at school functions, and address procedures related to the compliance of existing laws as they affect school safety.

Ranch View Elementary supported by the Mountain View School Board continues to improve campus security and maintain procedures and policies to ensure staff and student safety.

Teacher Preparation and Placement

The teacher data displayed in this SARC is from the 2020-21 and the 2021-22 school years. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included. These tables display the number and percent of teacher authorization/assignment as well as the total number and percent of teaching positions at the school, district and state levels. For questions concerning the assignment of teachers outside their subject area of competence or the credential status of teachers, visit the California Commission on Teacher Credentialing website at <https://www.ctc.ca.gov/>.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The data source is the California State Assignment Accountability System (CalSAAS) provided by the Commission on Teacher Credentialing. For information on the CalSAAS, visit the CALPADS web page at <https://www.cde.ca.gov/ds/sp/cl/calpadsupdfdash201.asp>.
