2022-2023 School Accountability Report Card

(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Through our rigorous, technology-driven program, Southern California Flex Academy is dedicated to inspiring students to become self-directed learners. Our mission is to deliver a personalized, robust, and versatile education that meets the unique needs of each student.

While partnering with families to support student achievement and promote academic excellence, we strive to nurture a culture of inclusion and respect where students feel safe to explore their passions and express their ideas.

Our purpose is to prepare students for success in college, career, and beyond by providing them with the skills and knowledge necessary to flourish in the 21st century.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement
Parents and Guardians are an extremely important part of the online learning experience. One way they help evaluate the school's programs and progress each year is through engagement with seasonal climate surveys. Three times a year, our parents and guardians have the opportunities to provide feedback to the school on items ranging from curriculum to classroom satisfaction. In these surveys, parents and guardians have the chance to share their detailed feelings about the state of the school. They have both rating scales and open response opportunities throughout the survey. On average, a substantial number of our parents and guardians provide feedback to the school during each round of surveys. In the 2022/2023 school year, almost 50% of our parents and guardians responded to the surveys.
At Southern California Flex Academy, parents and guardians also have the opportunity to have on-demand meetings with our support staff who serve as a resource and liaison for parents to communicate with the school. This ongoing communication provides open conversation toward student engagement, achievement, and overall school improvement. During these meetings, parents and guardians can provide feedback about the school, teachers, and administrators. They can also offer suggestions on how they would hope to see the school improve. This feedback is then given to the administrative team and discussed during support staff meetings.

2023-24 School Safety Plan

The Comprehensive School Safety Plan (CSSP) was established to ensure the health and safety of pupils and staff, in compliance with California SB 719 and AB 115. The plan is reviewed by staff and adopted annually by the school board in March. Staff and student health and safety are very important at Southern California Flex Academy (SCFA). While SCFA is an online school there are no physical classrooms utilized for instruction. Immunization forms and other pertinent medical records are kept (confidentially) on file by the school administration. All pertinent and required health and safety documentation is collected at time of hire or enrollment as appropriate. Copies of employee records and student records can be made available at the request of the School District.

Fiscal Year 2022-23 Types of Services Funded

Southern California Flex Academy (SCFA) is a tuition-free K-10 public online school in California that uses innovative technology to help students thrive in their schoolwork and life. SCFA credentialed teachers meet with students daily to provide homeroom, direct instruction, small group instruction, and office hours for support and guidance. These collaborative academic experiences engage students in academic inquiry, skill building, and foster curiosity. Teachers work with elementary, middle, and high school students to review lessons and assessments, and to guide and support students and learning coaches through the program. In addition to scheduled learning period meetings, students and parents/guardians have access to their teachers during the school day via phone, email, online platforms, and one-on-one appointments, as needed. The Student Success Team meets on a regular basis to evaluate progress and provide additional enhancement learning opportunities and support resources for students such as tutoring and counseling services.

Professional Development

The Professional Development (PD) at Southern California Flex Academy (SCFA) is designed to provide teachers and staff with opportunities for professional growth opportunities and to improve academic achievement for students. The primary emphasis for the academic intervention team is student data and increased learning opportunities to provide academic growth.

Professional Development

The Student Success Team along with administrators, meet weekly to review the ongoing needs of students and provide resources for academic and emotional support. In addition to ongoing Professional Development throughout the school year, the teachers and staff start the school year with several days of intensive PD. The PD workshop days include but are not limited to strengthening student and family engagement, academic intervention, advancements in educational technology to how to have difficult conversations with parents. All teachers and staff are required to attend, and each staff member provides feedback related to the Professional Development opportunities in their bi-yearly survey. These ongoing and collaborative PD opportunities sustain the learning experience of our students and improve overall professional growth for our teachers and staff.

This table displays the number of school days dedicated to staff development and continuous improvement.
