Principal's Message

The Lucerne Valley Unified School District Alternative Education staff recognizes that each student is unique and special. As individuals, we all learn at different rates and possess the ability to improve both socially and academically. We believe that students can be encouraged to expand their educational goals through flexible, individualized instruction in a nonthreatening environment that promotes learning and success. We recognize the dignity and worth of each individual and the importance of a positive self-concept and self-realization. Students should be helped to identify their strengths, maximize their potential and encouraged to become productive members of our society.

Although small in size and enrollment, Mountain View High School (MVHS) is not only dedicated to the success of each student, but in the continued improvement in the program and services offered to our students.

School Mission Statement

The Lucerne Valley Unified School District Alternative Education program will provide each student with the resources and support necessary to successfully complete a program of studies that will lead to a high school diploma as well as obtain marketable work skills. Students will learn in a personalized environment that fosters human dignity and promotes academic, social, emotional and personal success.

School Vision Statement

Lucerne Valley Unified School District is committed to becoming a model district in the state of California. Our students will be prepared academically, socially and ethically to become lifelong learners and responsible, productive citizens.

Parental Involvement

At Mountain View High School—from pre-enrollment through graduation—parents are involved via meetings, conferences, campus visitations, phone calls and letters.

For more information on how to become involved, contact alternative education secretary Lori Herriman at (760) 248-2408 or lori_herriman@lucernevalleyusd.org.

School Safety

The school has a comprehensive school safety plan that stresses emergency preparation. Local law enforcement and fire personnel work closely with the school. The plan is a working document, which will constitute updates and change as needed for its optimal use. One of the school leadership teams, Safe School Leadership Team (SSLT), oversees the revisions and helps to keep the staff updated. Fire, lockdown and earthquake drills are regularly carried out.

Visitors to the campus must sign in at the office before entering school grounds. Gates are locked during all school hours. Emergency evacuation and fire drills are held regularly, and a school safety committee is in place to help ensure all necessary components are in place and up-to-date. All buildings housing students meet Field Act standards. The fire department and the district inspect facilities annually. The safety of students and staff at Mountain View High School is paramount. Every effort is made to ensure every aspect of school safety is reviewed and implemented as appropriate.

The school site is a trained Clean Sweep school. Security cameras are in place, and new safety equipment is installed in tandem with the program. The Education Code is adhered to, and a good working relationship with the San Bernardino County Office of Education—for assistance, as needed—is in place.

The school safety plan was most recently reviewed, updated and discussed with school faculty in September 2023.

School Accountability Report Card

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

District Mission Statement

The Lucerne Valley Unified School District will become a model district in the state of California.

The Lucerne Valley Unified School District will prepare students to be responsible and productive citizens in a continually changing society and instill in them the desire to be a lifelong learner.

Enrollment by Student Group

The total enrollment at the school was 9 students for the 2022-23 school year. The pie chart displays the percentage of students enrolled in each group.

Class Size Distribution

The bar graph displays the three-year data for average class size, and the table displays the three-year data for the number of classrooms by size. The number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Professional Development

Professional development is an essential factor in effective schools. We are committed to ensuring our staff regularly participates in opportunities to maintain an educational level of excellence. Our instructional program is driven by student data that is consistently examined by administration and staff. It is used throughout our school to make informed decisions about assessment, curriculum, pedagogy and student services.

This essential data identifies student and school needs and progress. As a staff, we are focused on developing strong professional learning communities. Intervention specialists, grade-level teams and the principal meet in small group teams regularly. We have balanced our instructional minutes throughout the week to provide a minimum day for students each Wednesday. The remainder of this day is used for training and collaboration for staff. In addition, we encourage teachers to attend conferences and workshops that promote their professional growth.

Prior and during each school year, there are 3-10 days dedicated to staff development in areas such as technology, writing, math, language and the sciences. These specifically designated days are taught by well-respected professionals in their areas of expertise. In the 2022-23 school year, the focus has been on safety, Common Core State Standards and social-emotional learning.

California Physical Fitness Test

Each spring, all students in grades 5, 7 and 9 are required to participate in the California Physical Fitness Test (PFT). The Fitnessgram is the designated PFT for students in California public schools put forth by the State Board of Education. Due to changes to the 2021–22 and 2022–23 PFT administration, only participation results are required for the five fitness areas.

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the Fitnessgram. The table shows the percentage of students participating in each of the five fitness components for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf.

- Library and media center
- Books, instructional materials, computers and related software for our English language learner program
- Tobacco, drug and alcohol prevention programs
- Assemblies, field trips and fifth-grade science camp
- K-3 Class Size Reduction and Quality Education Investment Act (QEIA) based class-size reduction school-wide
- Schoolwide Accelerated Reader program
- After-school program

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade 10, 11 or 12).

CAASPP Test Results in Science for All Students

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP—California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8 and once in high school (i.e., grade 10, 11 or 12).

❖ Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The “percentage met or exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Graduation and Dropout Rates

This table displays the graduation and dropout rates for the most recent three-year period for which data is available. The four-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class. From the beginning of grade 9 (or the earliest high school grade), students who are entering that grade for the first time form a cohort that is "adjusted" by adding any students who subsequently transfer into the cohort and subtracting any students who subsequently transfer out.

Textbooks and Instructional Materials

Mountain View High School provides a wide range of educational materials to guide students to mastery of state standards including textbooks, software, audio, video and printed material to meet the individual needs of its students. The selection of textbooks follows the guidelines of the California State Frameworks. There are multimedia computers with internet connections available to students in the MVHS classrooms.

All student special populations are provided with and have access to their own assigned textbooks and instructional materials to use in class and home. The students all have a Chromebook that was issued to them at the beginning of the school year and that they are able to use at home and in class.

School Facilities

Mountain View High School consists of one self-contained classroom located on the Lucerne Valley Alternative Education Center campus. The campus is clean, safe and well maintained. The school is kept in good repair by our maintenance crew, which consists of one custodian and one groundskeeper. The facilities are cleaned daily. Lucerne Valley Alternative Education Center is co-located with the district office. The campus has an exercise course and a large grass field for athletics. The campus was established in 1985; it is fully fenced and locked after hours.

"Although small in size and enrollment, Mountain View High School is not only dedicated to the success of each student, but in the continued improvement in the program and services offered to our students."

Career Technical Education Programs

District course offerings: Career Technical Education (CTE) program, Restaurant Occupations, auto shop, public safety, graphic design and landscape and design. Melissa Cook-Rodriguez is the primary ROP representative.

Industries represented include auto, outdoor landscaping, computer applications, food preparation and 3-D design.

Special populations of students are included in district offerings of CTE.

Due to the small size of the district and, more specifically, alternative education class sizes, CTE offerings outside of the comprehensive campus are limited.

Career Technical Education Participation

This table displays information about participation in the school's Career Technical Education (CTE) programs.

Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

Teacher Preparation and Placement

The teacher data displayed in this SARC is from the 2020-21 and the 2021-22 school years. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included. These tables display the number and percent of teacher authorization/assignment as well as the total number and percent of teaching positions at the school, district and state levels. For questions concerning the assignment of teachers outside their subject area of competence or the credential status of teachers, visit the California Commission on Teacher Credentialing website at <https://www.ctc.ca.gov/>.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The data source is the California State Assignment Accountability System (CalSAAS) provided by the Commission on Teacher Credentialing. For information on the CalSAAS, visit the CALPADS web page at <https://www.cde.ca.gov/ds/sp/cl/calpadsupdfdash201.asp>.
