2022-2023 School Accountability Report Card

(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

New Hope Elementary School District is a small, rural, single school district located in the northern most part of San Joaquin County. New Hope Elementary serves students in transitional kindergarten through eighth grade. The staff and the community take great pride in their reputation for providing instruction tailored to meet the needs of our diverse population. New Hope Elementary's largest sub-group is Hispanic or Latino, which comprises 88% of the student body. Another significant group is our English learners which make-up 59% of the student body. New Hope Elementary is a Title I and Provision II school serving the needs of their largest sub-group, low socioeconomic students, which is 90%.

There are 11 full time certificated teachers, one full time certificated Reading Intervention teacher, one Teacher On Special Assignment (TOSA), and one full time Counselor. All certificated positions provide quality instruction and support services to the students. New Hope Elementary also employs paraprofessionals in every classroom, all of whom provide direct support to students and teachers. The entire New Hope Elementary staff works collaboratively to provide a safe, nurturing, and educational environment. English Language Arts (ELA) and ELD continues to be the educational focus.

Students are encouraged to become the best person they can be; to develop and exemplify good character traits, while setting the best example for themselves and their community. All staff were trained in Capturing Kids Heart, which will help maintain a focus on constantly improving the culture at New Hope. Bullying, in any form, is not tolerated, and is dealt with in a timely manner. The safety of our students is of the highest priority. Safety drills are a monthly standard during our school year.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered “ineffective” under ESSA)

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

At the end of every instructional year, teachers and paraprofessionals take inventory of their grade level curriculum. Replacement texts and consumables for the following instructional year are order at that time to ensure all requirements are met before the beginning of the following instructional year. We are in the process of piloting Social Science and Science curriculum.

School Facility Conditions and Planned Improvements

New Hope Elementary School is very proud of the clean environment made available to its students and community. Visitors to the school will find the grounds some of the best kept at any school. A dedicated maintenance staff works tirelessly to ensure a well groomed and litter-free school grounds. New Hope Elementary School takes great efforts to ensure that grounds are not only clean, but safe, and functional. To assist in this effort, we used the Facility Inspection Tool (FIT) instrument developed by the State of California Office of Public School construction to determine that the school is in good repair. The present school was built in 1950. The school has 11 regular classrooms, one Special Education classroom, counseling room, a multipurpose room, and a portable building for staff members to work. District maintenance staff ensures that the necessary repairs to keep the school in good repair and in working order are completed in a timely manner. Emergency repairs are always given the highest priority. A cleaning schedule has been developed, and is followed daily, to ensure a clean and safe school. It is the goal of the New Hope Elementary School Board to ensure that students have the opportunity to learn with the assistance of updated technology, equipment, and facilities that allow for a safe, purposeful, and fun learning environment. To help with energy efficiency, New Hope Elementary installed solar panels over a portion of the multi-purpose room roof top in 2018. During the 2022-2023 school year, the following projects have been completed or are under development: (1) School wide tree trimming and tree removal, (2) concrete sidewalks throughout the campus, (3) a massive disposal project of outdated and unnecessary products, (4) new fiberoptic infrastructure, and (5) seal coat and new backboards on the basketball courts (A copy of the FIT report is available in the district office.)

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

New Hope Elementary welcomes and encourages school-wide parent participation. Parents can be an active part of their children's education by volunteering in the following capacities:

- Parent Advisory Councils: District English Language Advisory Council (DELAC)
- Classroom Field Trips
- Parent Conferences
- Field Day
- Read Across America
- Family Night's
- Cinco de Mayo Program
- Fun Friday's
- Promotion planning (Kinder and 8th grade)

2023-24 School Safety Plan

New Hope Elementary School has developed a Comprehensive School Safety Plan that is updated and reviewed on an annual basis. The safety plan primarily addresses issues of school safety pertaining to day-to-day activities, such as general rules for maintaining a safe and positive school environment, as well as procedures for a large scale emergency. During the school year, a variety of safety drills are practiced on a monthly basis. Drills are conducted at various times of the day to help prepare students for an unexpected event. Also reflected in the district safety plan are the district discrimination and harassment board policies, as well as procedures for reporting a hate crime. The comprehensive school safety plan has been reviewed and updated with the help of the Thornton Fire department and the San Joaquin County Sheriff's Department. The Safety Plan was adopted by the board on February 7, 2023 for approval.

Professional Development

Along with regularly scheduled staff meetings and across grade collaboration, professional development is scheduled for teachers and paraprofessionals throughout the instructional year. Teachers are offered a week long Teacher's Institute during the summer break. Prior to the start of the 2020-21 school year, Paraprofessionals were provided two full days of training. Three MOU's have been established with San Joaquin County Office of Education (SJCOE): (1) Language and Literacy Department, (2) STEM Department, and (3) Math Department. All three MOU's provide professional development through a coaching model. The primary focus for staff development is to provide teachers and paraprofessionals with timely, well-researched, standards-based instructional methodologies and information that will increase student participation and achievement. Teachers are also provided with opportunities to attend various workshops addressing specific instructional strategies relevant to individual teacher needs and areas of concentration. New Hope Elementary has placed their focus on meeting the California Common Core Standards, NGSS, and the daily integration of technology. The MOU established with the STEM Department, assists teachers and students with technology. Students in grades TK-8 have an opportunity to attend and receive high quality, state of the art, technology lessons at the SJCOE Fab Lab. With the onset of the COVID-19 pandemic, professional development has centered around: Distance Learning, Technology, Social and Emotional Needs, Phonics, Language Arts, and Math.
