2022-2023 School Accountability Report Card
(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Principals Message-

The School Accountability Report Card, issued by local school boards for every school in the state, provides parents and the community with a variety of information about the school, its resources, its successes, and the areas in which improvements are needed. The information contained in this report card (SARC) is for the 2023-2024 school year. As you read through this report for Cayucos Elementary School, I believe you will find that our school has a solid record of achievement, a faculty that is professionally skilled and personally committed to meeting the learning needs of students, a student body that is motivated to perform well, and an amazingly supportive parent/community. You may request additional information regarding the SARC by calling the school office.

School Description and Mission Statement

Cayucos Elementary School is located on a hill overlooking the Pacific Ocean about half way between San Francisco and Los Angeles. We currently serve 181 students in transitional kindergarten through eighth grade. There is great community support for the programs offered. Students not only receive academic instruction in the common core state standards, but have regularly scheduled classroom time in physical education, music, art, drama and health which are taught by credentialed teachers and our school nurse. Each grade level has technology integrated in a grade-appropriate approach. Our 1st through 8th grades have 1:1 Chromebook programs and our TK/Kindergarten grades have 1:1 iPads coupled with a variety of other devices available to support instruction. Our middle school elective program offers college and career focused electives with an emphasis on project based learning. Included in our elective schedule are the following: Lego Engineering, Electronic Music Production, Jewelry Making, Cooking, Architectural Design and Painting, Floral Design, Electronic Communication and Coding, and Aeronautical Construction. This robust list of electives complements our Career Technical Education Pathway: Arts, Media, and Entertainment. In this pathway we offer Drama, Stagecraft, and Lightening/Sound Design.

Cayucos Elementary School District includes families and the community to support individual potential and guide students to become critical thinkers in a global culture. In our safe, healthy, caring, and interactive environment, students are taught to respect themselves, others, and the planet. At Cayucos Elementary School every student is welcomed inspired, and challenged. This past year we relaunched our behavior expectations through our explicit teaching of our PBIS expectations: Safe, Responsible, Respectful, and Kind.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered “ineffective” under ESSA)

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Cayucos Elementary School sets a high priority on ensuring there are sufficient State approved Instructional materials available for all students. Parents are encouraged to participate in the textbook/Instructional Material review process by previewing materials and making comments to the adoption committee when new adoption occurs. The English/Language Arts textbook series was reviewed and piloted in 2016-2017 for 2017-2018 adoption. A review of the Social Studies Curriculum took place for grades Kindergarten through eighth grade. The new Kindergarten - fifth grade Social Studies curriculum was adopted at the beginning of the 2019-2020 school year. The Middle School adoption of the Social Studies curriculum took place at the end of 2019/2020 school year. 2020-21, Cayucos Elementary School has partially piloted Science curriculum options to align with NGSS for Middle School. School closure due to Covid-19 has delayed the final adoption choice. The next adoption cycle will include Mathematics both Science. Our goal for Science adoption is 2023-24. We are currently reviewing science materials for adoption in May 2024.

In addition to standard State-approved textbooks, Cayucos Elementary School students have access to many other instructional/curricular support materials. Our school's library is well-supplied, and there is an ongoing program to purchase new books regularly. All purchases are carefully considered in terms of how well they will support our total instructional program and meet the needs of our students. Textbook selection involves a committee of teachers who engage in reviewing potential resources to determine alignment with the state-approved instructional framework for each content area. Resources that best meet alignment criteria are selected to be piloted in classrooms. Data is collected and evaluated, and the committee makes recommendations to the Board of Education for approval.

School Facility Conditions and Planned Improvements

Pride is evidenced on our campus by how clean and maintained students and staff are keeping the grounds. The passage of our bond in fall 2005 allowed the district to build a new school. The Maintenance and Operations Department has done an exceptional job of maintaining the buildings and grounds proactively repairing and replacing equipment as needed. At this time, all classrooms have high speed Internet access, we have a multi-purpose gymnasium, a music room with stages, and only one portable classroom. Our library has over 4,000 texts, and is continually updated and includes a Maker Space area. Construction of a new classroom building took place to better house our Resource programs, School Psychologist, Counselors and large group meetings. Completed August 2022, delayed from original completion date of April 2022.

All after-hours custodial and maintenance is completed by contracted service providers. Staff and students contribute significantly to the cleanliness of our campus through education and awareness programs. We continue to work towards a zero waste goal in our cafeteria. Solar Panels have been placed at the school bus barn. School classrooms and the office building have been updated with efficient lighting systems. Everyone is proud of our clean and safe school.

The data used to make the determination of the school being in good repair comes from the completed Interim Evaluation Instrument (FIT). Included are the dates of the school site inspection, the Interim Evaluation Instrument completion date, and the date of any remedial action taken or planned. San Luis Obispo County SIPE performs a yearly walkthrough inspection of the campus both indoors and outdoors. Additional information about the condition of the school's facilities may be obtained by speaking with the school principal.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	61	61	61	61	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Cayucos Elementary School encourages parents and community members to be active participants in all aspects of school. Through our PTA, School Site Council (SSC)/LCAP Committee, Cayucos Educational Foundation, and service organizations, such as, Cayucos Rotary Club, Lions/Lioness Clubs, Cayucos Garden Club and Cayucos Seniors, there are many opportunities to be active supporters of our students and school. Our PTA Committee allows parents to be directly involved in providing students with activities and programs in many areas, such as art, drama, music, classroom volunteers, aquatic safety, physical education and field trips. Stakeholder groups organize and provide numerous volunteers for classrooms, special activities, and events throughout the year. Students are supported through leadership training, Friday Night Live activities, service learning, assemblies, and positive school climate activities. The Cayucos Educational Foundation is a nonprofit organization, which supports all non-fully funded aspects of student educational needs such as technology and the arts. Our service organizations provide volunteer time, funding, and/or facilities for student support at Cayucos Elementary School. We are now bringing back volunteers and field trips, as allowed via the health department guidelines. For more information about parent involvement contact Jen Gaviola, Superintendent, at (805) 995-3694.

2023-24 School Safety Plan

Cayucos Elementary School is committed to providing students with a safe learning environment. A School Safety Committee meets regularly to review safety issues and recommend improvements. The committee is comprised of a parent representative, a teacher, the school maintenance staff, the nurse and the principal. Safety in-service training and assemblies for both the staff and students are planned throughout the year. The School Board, SSC, PTA, and local government agencies are annually presented with the reviewed Safety Plan. A variety of types of safety drills are conducted monthly. Our students feel safe and understand the school supports their safety at all times. School vandalism and crime is reported monthly to the State of California. School vandalism and crime at Cayucos Elementary School are extremely low. Our Character Counts, Buddy programs and counseling opportunities improve the ability of our students to discuss and solve peer issues and conflicts.

The Safety plan includes school procedures for emergencies within and outside of our classrooms and school. Cayucos Elementary School is a closed campus and requires all visitors to sign in at the front office before entering the main campus. Emergency drills are held each month on a rotating basis for fire, earthquakes, intruders and preparation for other disasters. All staff is responsible for the safety of the students. Faculty members and Instructional Assistants are on duty prior to and at the end of the school day as well as during all break times. A student/parent handbook is provide to all families at the beginning of each school year and reviews expectations, rules and procedures. The main topics within the handbook are reviewed with students on campus during class and at assemblies.

Fiscal Year 2022-23 Types of Services Funded

Programs and supplemental services are provided by the school and local groups for a wide variety of students and student activities. Some may be provided based on need while others can be earned through good citizenship, academics and character building. Among the school site-sponsored activities are Associated Student Body, Athletics, Interact Club, Friday Night Live, Red Ribbon Week, Character Counts, Fabulous Falcons, Golden Falcon, and the GREAT program sponsored by the County Sheriff's department. We have also implemented PBIs in the 2023-24 school year and beginning in January 2024 we will be training in the Olweus Anti-bullying program.

Meeting the needs of all students at Cayucos Elementary School is a priority. Programs that support student learning include Special Education, Counselors, Reading and Mathematics Intervention, Title 1, SIPPS, Achieve3000, and Smarty Ants which support English Language Learners and students with academic and social-emotional challenges. Additional services are contracted through the County Office of Education or neighboring Districts: psychologist, Speech Therapist, vision specialist, and occupational and physical therapists. Support services include part-time school nurse, speech therapy, hearing, vision, dental, and scoliosis screening. Students with special needs have access to the Special Education program. Services are provided at our school site. Students may attend schools in San Luis Obispo County as determined by their specific needs. In the 2023-24 school year, we are offering counseling services on a daily basis at our school.

Professional Development

Professional development opportunities for teachers are made available through the district, outside resources, the County Office of Education, and conferences. The district takes full advantage of the minimum days and staff development time allocated in the state budget. During minimum days and staff development time, classified staff also receive training in areas of student safety and student instruction/intervention. Individual teachers work with the principal to set teacher's improvement goals. Teacher-principal interaction is cooperative and positive. We continue to have professional development during staff meetings and release time. Teachers are involved in professional development tailored to their particular curricular area with a focus on providing support for all students. Early release days (once per week) enable the staff to meet together and collaborate as one group, as elementary and middle school groups and participate in different committee groups on campus.

For beginning teachers the Teacher Induction Program hosted by the San Luis Obispo County Office of Education, which is negotiated with the certificated (teaching) staff, is used to assist teachers with best practices. This enhances our current evaluation, training, support processes, and staff development. A large portion of the professional development time is currently focused on technology integration and social/emotional learning. Teachers are encouraged to attend professional development opportunities that most meet their needs both during and outside of school time. Teachers request the principal and are offered assistance with making arrangements. The principal shares information regarding professional development opportunities as available. In the 2023-24 school year, the following professional development was attended by Cayucos Teachers: Thinking Maps, Get Your Teach On, CA. Science Conference, CA. Math Symposium, and Restorative Practices. In addition to these teacher based opportunities, classified staff has professional development in the following areas: early literacy, restorative circles, comprehension, and behavior management.
