2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

School Description:

At Belle Air Elementary School we have a unique intersection of cooperation where a team of dedicated administrators, teachers, and staff work collaboratively with the San Bruno community to meet the diverse needs of all of our students. This synergy has been accomplished over the years through staff professional development, community based outreach, and dedicated families. Our student talent and potential reflect our diverse student population, and this is all achieved despite circumstances out of their control and through overcoming a myriad of adversities. Students - along with their families - continue to exceed expectations with the help of our dedicated teachers and staff that work tirelessly to make sure students receive the best academic experience. This can be achieved through staff professional development focused on our best practices, academic intervention and standard instruction focused on Common Core and the daily use of academic language.

Belle Air serves a vibrant, linguistically, and culturally diverse community in San Bruno, California, on the north Peninsula.

We have developed partnerships with the greater community including the City of San Bruno, San Bruno Lions Club, San Francisco International Airport and Recology of San Bruno.

Belle Air has also partnered from non-profit organizations like San Bruno Education Foundation, New North Church and Mobilize Love. We are a community school that also provides for our families and greater community.

Belle Air also hosts a monthly food distribution with Second Harvest Food Bank.

We help provide resource for our neighbors and community. We share a strong commitment to understanding and serving the needs of our families and students.

For this school year (2022-2023) we are focusing on our student's/ staff physical and emotional well being and growth as a collective staff.

We will continue implementing our adopted rigorous curriculum, while also integrating social emotional learning.

Belle Air also continues to offer our after school program through the YMCA which includes homework help, enrichment activities, and structured outdoor games. We are also in partnership with Elevo for outdoor structured play daily during and after school. And also partnering with Mobilize Love to do outreach with our students on Wednesdays.

We also provide school counseling through our district.

2022-23 School Overview

Belle Air will persevere to meet all student needs: We have implemented an early intervention model that includes a reading intervention teacher and one part-time para-educator providing targeted and specialized instruction to select students. We have a resource specialist teacher, speech teacher and counselors to provide services for those students with exceptional needs.

Belle Air School Vision

At Belle Air, all students will be empowered in their ability to learn at their highest standard regardless of race, ability, and circumstances out of their control.

Students will live responsibly, confidently and with empathy.

Through perseverance, today's mistakes will grow into tomorrow's success.

San Bruno Park School District Belief Statements

We believe that:

- Public education serves a vital role in our society.
- Honesty and openness at all levels create trusting relationships.
- Every student has the capacity and a desire to learn. It's our task to capture and expand that desire and encourage students to do their best.
- In education, one size does not fit all; we need to address each child's needs individually.
- The community must be included in the education of their children.
- We must act on our beliefs and serve as role models.
- We must provide a safe and secure educational environment.

Belle Air School's vision complement the District's Portrait of Graduate by aligning the vision of students becoming Compassionate, Collaborative, Critical Thinkers, Contributors, Creative and Innovative, and Communicators, through a collective, belief that a student's success should be a between balance a growth mindset, a rigorous academic standard and a nurturing climate that supports the socio-emotional needs of all students.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The instructional-materials selection process in SBPSD, when there is adequate funding, involves teachers and community members. There is an advisory committee of teachers, known as the Curriculum Council, with representatives from each school. The Curriculum Council narrows the field of state-adopted materials, when such a list exists. Then teachers in the district are solicited to do a "comparison pilot," meaning that they have to use the two finalists in an actual instructional setting. They then submit a recommendation to the Curriculum Council. Administration then forwards the recommendation to the school board.

The textbook content fits within the State Board of Education-adopted curriculum frameworks. The district is in the final year of a four-year transition plan to align textbooks with Common Core State Standards.

School Facility Conditions and Planned Improvements

Belle Air Elementary School was originally built in 1951 and provides a safe, clean environment for students, staff and volunteers. The school was reconstructed in the summer of 2000. The campus has a quad configuration and is fully gated for safety and convenience of access. In the quad area there is a central playground area with two play structures, one for primary and one for upper-grade students. In the front of the school, there is a preschool playground with a climbing structure. Belle Air Elementary School is composed of 18 preschool to fifth-grade classrooms, a library-media center, computer lab, counseling room, staff room and cafeteria. There two portables; one has been remodeled as a state-of-the-art health center, and the other is a parent center.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	14	N/A	43	N/A	47
Mathematics (grades 3-8 and 11)	N/A	11	N/A	35	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents at Belle Air are involved in their students' education in a variety of ways. After COVID restrictions, parents are able to volunteer in classrooms again. They are encouraged to be active members of various school committees, including the PTA, School Site Council (SSC), English Learner Advisory Committee (ELAC) and District English Learner Advisory Committee (DELAC) which are held remotely. Our school is in consistent communication with our families. Teachers and the Administrator is accessible for questions in person, through email and by phone and in person during arrival and dismissal. Our families also receive a bi-weekly newsletter with updates and information about what is happening at our school.

The school-wide opportunities for community engagement have included a back to school backpack give away, holiday performance by our very own students, Breakfast with Santa Claus, and a pot luck during Latino Heritage Night. We have whole school monthly Super Student Assemblies highlighting students who are exemplifying our Character traits: Respect, Responsibility, Be Caring, Honesty, Wise Choices, Effort and Positive Attitude. We are also learning and highlighting social justice heroes that match our character traits, like: Sonia Sotomayor, Katherine Johnson, Greta Thunberg, Cesar Chavez, Harriet Tubman, Jackie Robinson, Malala Yousafzai and more.

Our parent liaison works with parents to encourage their involvement, school attendance and engagement with the school. In addition, this person supports parent-education school communication throughout the school year and provides interpretive services for families. This school year we also began offering Adult English and technology classes three times a week, through a partnership with San Mateo Adult School.

For more information on how to get involved at Belle Air, please contact the school office at (650) 624-3155.

2021-22 Chronic Absenteeism by Student Group

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Suspensions	0.00	0.99	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively.

Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

To safeguard the well being of students and staff, the faculty and School Site Council have updated the comprehensive School Site Safety Plan, most recently, September 2022 . The safety team is revising the plan this year, and covers school disaster preparedness and various safety procedures, such as the visitor policy, emergency materials and evacuation procedures. Safety drills are held on a regular basis; fire, earthquake, evacuation, shelter in place and lockdown drills are held throughout the year. Drills are conducted monthly and rotate based on the San Mateo Big 5.

All visitors to Belle Air School must sign in at the office and wear a visitor's pass at all times. Supervision is provided to ensure the safety of each student before school, during recess breaks, at lunch and after school. Supervision is a responsibility shared among noon supervisors, teachers and the administration. Shortly after the school day starts, all gates are locked. If people arrive and need access to the school they can call the front office or ring the bell at the front gate.

To promote a safe and caring school climate, the Belle Air School community provides students with support and strategies to treat each other with respect and in a caring manner. To that end, all staff members reinforce the Positive Behavioral Interventions and Supports (PBIS) model and discuss and reinforce positive character traits. Students also are taught to use conflict-management skills to help work through problems with their peers.

2022-23 School Safety Plan

A system of guidelines on appropriate and inappropriate behavior includes yellow and blue slips with respective consequences. Suspension is always a last resort and is only for those infractions enumerated in the Education Code. A Climate Committee/PBIS consisting of teachers and the principal meet monthly to address school wide behavioral matters such as PBIS, the implementation of the character traits and to plan the monthly Super Student Assembly.

Professional Development

The district and school site provide time and resources for collaboration, planning and professional learning for all staff.

Teachers receive training directly related to instructional practices by attending after-school professional learning workshops and conferences. Professional-development days enable staff members to receive training that is rigorous, challenging, and responsive to student learning needs and current best practices. The focus this year was on English Learners and Inclusion.

Professional learning is scheduled and takes place on professional learning days, early release days, after school and during summer break. The staff utilizes weekly (Wednesdays) meeting times to discuss evaluate, and collaborate on distance learning platforms, and participates in Socio-Emotional workshops (CRM). In addition, the Instructional Leadership team meets after school monthly to focus on data driven instruction by evaluating the most recent assessments and planning for staff involvement, inquiry and planning through COI process. A template for each teacher is created to collect student data and shared among the teaching staff.

Support for teachers is based on a cycle of inquiry and includes collegial support through common planning time, teacher-led professional learning, peer observation and coaching.

This table displays the number of school days dedicated to staff development and continuous improvement.
