2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Principal's Message

School Mission Statement

Our school is an enthusiastic community of learners where students, teachers, and parents work together toward clearly focused, educational, personal, and social goals. Allen School's mission and vision complement the District's Portrait of A Graduate by committing to helping students build strong qualities of mind and character to achieve six requisite competencies upon graduation: creator and innovator; critical thinker and problem solver; effective communicator; patient collaborator; caring contributor; and compassionate community member.

We are dedicated to preparing our students to:

- build confidence and a strong sense of community
- be respectful, responsible and compassionate
- make intelligent, independent decisions
- live and contribute to our culturally diverse society

To accomplish these goals, we believe that we must provide our students with a meaningful "Thinking curriculum," a curriculum that prepares students to solve problems, synthesize information, differentiate new learning from old, and learn to use their minds well. In doing so, this:

- provides relevance to students in what they are learning
- allows students to work toward meaningful goals in real learning and real work
- asks students to commit to quality work
-

San Bruno Park School District Belief Statements

We believe that:

- Public education serves a vital role in our society.
- Honesty and openness at all levels create trusting relationships.
- Every student has the capacity and a desire to learn. It's our task to capture and expand that desire and encourage students to do their best.
- In education, one size does not fit all; we need to address each child's needs individually.

2022-23 School Overview

- The community must be included in the education of their children.
- We must act on our beliefs and serve as role models.
- We must provide a safe and secure educational environment.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The instructional-materials selection process in SBPSD involves teachers and community members. There is an advisory committee of teachers, known as the Curriculum Council, with representatives from each school. The Curriculum Council narrows the field of state-adopted materials, when such a list exists. Then teachers in the district are solicited to do a “comparison pilot,” meaning that they have to use the two finalists in an actual instructional setting. They then submit a recommendation to the Curriculum Council. Administration then forwards the recommendation to the school board.

School Facility Conditions and Planned Improvements

Allen Elementary School began as New Edgemont School in 1941. Our original building had nine classrooms, with six more added in 1943. A cafeteria, kindergarten classroom, and school office were added in 1956, and the school was renamed in honor of Decima Allen, San Bruno librarian, and a 25-year member of the school board. Funded by a \$79 million facilities bond passed in November 2018, a new Allen School will be built on the same site to replace the existing campus. The new campus buildings were completed in August 2022, the existing campus was demolished (June 2022), and Phase 2/Hardscape/Landscape (in the original campus footprint) will be completed June 2023. The modernization of Allen Elementary School will create a top tier facility and a school the entire community can be proud of.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	40	N/A	43	N/A	47
Mathematics (grades 3-8 and 11)	N/A	35	N/A	35	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parental Involvement: Parents may join our School Site Council/SSC, which works with the administration to help make financial and programmatic decisions based on the priorities of the school. Parents of our English learners are vital to our District English Learner Advisory Committee/DELAC. During a typical non-COVID school year, parent volunteers help with special projects in the classroom, Art-in-Action, and help to chaperone field trips. The Parent-Teacher Association/PTA holds various fundraisers and sponsors events such as the Halloween Parade and Winter Wonderland. We expect all parents to attend parent-teacher conferences, Back-to-School Night in the fall, and Open House in the spring. Parents are offered a series of workshops from community partners to provide supportive resources and tools. These workshops are responsive to the needs of the community. Internally, our teachers provide parental education on how to support language acquisition at home. The principal creates regular opportunities for community members to connect about school progress. A newsletter is also published weekly to support opportunities and keep constituents informed about events at school. To ensure equity of access, our Parent Liaison translates during these events and communication documents whenever possible. In addition, parents are integral members of our Student Success Team and Student Attendance Review Team.

Volunteers are always welcome! For more information on how to become involved at the school, please contact your child's teacher, the principal, the school's parent liaison Sylvia Rodriguez, or our PTA president Caroline Canizarro at (650) 624-3140.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

2022-23 School Safety Plan

During a traditional school year, the staff and aides monitor the school grounds before and after school, at recess, and at lunchtime. Teachers regularly review with students the rules for safe and responsible behavior. Visitors are required to sign in at the office and wear a visitor's badge while on campus. We review our School Safety Plan annually. It was most recently reviewed, updated, and discussed by the Safety Plan Committee on October 24, 2022. The plan will be discussed and approved by the School Site Council in January 2023. The plan includes procedures for emergencies, evacuation routes and emergency supply inventories. Copies of our plan are available to the public in the school office. The plan is reviewed by the staff during an annual staff meeting, and is a work-in-progress document, annually.

Our teachers focus on the positive and the relevant, while maintaining warm, purposeful, and caring atmospheres in their classrooms. Professional development has been provided through the district in collaboration with the San Mateo County Office of Education to support the implementation of the Caring Schools curriculum (SEL/Social-Emotional Learning). We rarely have serious disciplinary problems and utilize social justice practices when addressing infractions. We find that brief time-outs, loss of recess, and conflict mediation take care of most misbehavior.s

Due to COVID-19, we have enacted our Health and Safety plans which reflect policies and procedures to uphold the Four Pillars for Health and Safety provided by SMCOE. The district continues to collaborate with the health officials at the SMCOE to ensure that we are up to date and current with our practices and reporting.

2021-22 Types of Services Funded

Allen School receives federal Title I funds as well as state Local Control Funding Formula (LCFF) supplemental funding. We use these dollars to pay for support for unduplicated students and those needing intervention. We provide translation services as needed to keep parents informed of their children's progress, pay for teacher instructional aides, a Reading Specialist, and provide counseling services. Instructional technology and intervention materials are also purchased through these funding sources. We also receive ASES After School Education and Safety grant funds and ELOP funding for TK-6 extended day

Professional Development

The district and school site provide time and resources for collaboration, planning, and professional development for all staff. Teachers at Allen receive training directly related to curriculum and instruction by attending workshops and conferences that are approved by the district and administration. Staff development days enable staff members to deliver curriculum and instruction that is rigorous, challenging, and responsive to student needs. In 2020-23, the focus has been on ELD, reading (and a new Guided Reading Program), small group interventions, and science/STEAM. Teachers selected the topics through a teacher- interest and needs survey. Workshops were scheduled for dedicated professional development days. Professional development is delivered in a variety of ways, including during scheduled district PD days, during site collaborative time on Wednesdays, during Principal Meeting times, and in after school workshops. Support during implementation is provided through class visitations, data collection and analysis, collaborative conversations among grade-level teams, and teacher/principal meetings.

This table displays the number of school days dedicated to staff development and continuous improvement.
