2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Principal's Message

John Muir Elementary School's mission and vision complement the District's Portrait of A Graduate by educating children holistically as communicators, contributors, critical thinkers, collaborators, and compassionate, creative and innovative learners. We continue to focus on developing a school culture of academic excellence, life skill development, and social responsibility. We believe each child is unique, can succeed, and strive to empower them to become resilient learners who reach their fullest potential.

For the 2022-2023 school year, our focus is on a new positive behavior intervention system and higher academic achievement through the implementation of a new phonics program, stronger focus on our EL student instruction practices, and continued intervention support for struggling learners.

School Mission Statement

John Muir is dedicated to educating all children in a nurturing and inclusive environment and strives to empower each student to become a critical and innovative thinker, collaborator, and effective communicator who exhibits compassion for the greater world in which they live.

District Mission Statement

The San Bruno Park School District educates and empowers all students to thrive academically, socially and emotionally and be contributing members of society.

District Vision Statement

The San Bruno Park School District will engage and inspire our students to be productive critical thinkers who embrace diversity, curiosity and innovation throughout their lives.

District Core Values

The San Bruno Park School District values...

The whole child

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The instructional-materials selection process in SBPSD involves teachers and community members. An advisory committee of teachers, known as the Curriculum and Instruction Council, with representatives from each school, narrows the field of state-adopted materials, when such a list exists. Teachers are solicited to participate in a “comparison pilot,” piloting the two finalists in an instructional setting. Teachers submit a recommendation to the Curriculum and Instruction Council based on their pilot experience. Thereafter, the Curriculum Council submits their recommendation to the board.

In addition to all district adopted curricula, John Muir supplements instruction in ELA with CKLA and Heggerty Phonics. In math, instruction is supplemented through Xtra Math.

School Facility Conditions and Planned Improvements

John Muir School was built in 1960 and provides a safe, clean environment for students, staff and families. A \$30 million bond allowed modernization of the entire school district in 2000. At John Muir, the project included a new roof and remodeling all the classrooms, the library and administration office. The kitchen was re- modeled in 2005. John Muir is composed of 20 classrooms, a library, cafeteria, staff lounge, 7 portables, three playgrounds and a large field.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	69	N/A	43	N/A	47
Mathematics (grades 3-8 and 11)	N/A	61	N/A	35	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

At John Muir, we support parents as active participants in their children's education. Screened volunteers assist in our classrooms, on field trips, with lunch supervision, our recycling program, campus improvement projects and school community events. Our School Site Council and English Learner Advisory Committee are activity involved in developing our school vision and goals. We work closely with our families to support individual learning for their students that extends into the home. The Parent Teacher Association (PTA) has numerous volunteer activities, including the Ice Cream Social, Hot Cocoa Bash, Pancake Breakfast, special persons day, school picnic, and more. Our largest event of the year is our Trunk or Treat with hundreds of volunteers supporting. For more information on how to become involved at John Muir school, please contact Gisella Sehorn, parent liaison, at gsehorn@sbpsd.k12.ca.us or Jessica Lutin, PTA president, at jlutin@johnmuirpta.org.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

2022-23 School Safety Plan

School Safety

Our School Site Council and staff annually reviews and revises our school safety plan, emergency drills, and safety equipment and supplies. The CSPP was most recently reviewed by our SSC on December 8, 2022 and with staff on November 30, 2022.

Our Big Five Committee and District Safety Committee updated our processes and procedures to comply with county Big Five protocol in 2022. Drills are held on a monthly basis and include fire, earthquake, and evacuation. Lockdown drills are held with staff only on a biyearly basis. The safety plan is located in the office for public access. All visitors must sign in and out of the office, wear a visitor sticker and are accounted for in all drills. Supervision is provided to ensure the safety of each student before school, during breaks, at lunch, and after school. Supervision is shared among noon supervisors, teachers, and the administration.

Professional Development

Professional development is provided both by the district and at the site level. Training in curriculum, instruction, and assessment are provided through district organized events, individual workshops and conferences, and observation in other classrooms. Staff-development days allow for rigorous, challenging and differentiated instruction. The main focus for our site professional development this year is in developing stronger English Language support, providing rigorous data driven instruction and social emotional learning and support for both staff and students. Site level professional development is held monthly on one Wednesday afternoon and is site specific based on our additional curricular programs and data determined site needs.

This table displays the number of school days dedicated to staff development and continuous improvement.
