2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

North Cow Creek School (NCCS) is a small, rural school of approximately 255 students in grades T/K-8, which was first established in 1882. Located in Palo Cedro, 9 miles east of Redding in beautiful Northern California, the campus includes a gymnasium, STEM/Innovation lab, full playground and athletic fields in addition to the grade level classrooms.

NCCS has a strong focus on academics, as demonstrated by its consistently high Academic scores.

The school educational program is enhanced by sports, field trips, and a middle school activity period. Students receive technology education through multiple weekly visits to the Innovation Lab (I-Lab). Students in grades 1 - 8 are each assigned a Chromebook for use within the classroom. Technology resources are enhanced through a 1 gigabyte fiber line. The positive school culture is embraced by the Leader in Me program emphasizing the Seven Habits of Highly Effective People.

North Cow Creek School also offers a district-run after-school and before-school day-care program. The school has been recognized as a California Distinguished School, a Governor's Fitness Challenge award winner, and has received the California Superintendent's Challenge Award.

The vision of the staff at NCCS is to build a community empowering life-long learners who pursue a promising future for themselves and our world. As such, we strive to develop in all students the skills to maximize their academic potential, social abilities and personal fitness so that students will demonstrate continuous progress using a variety of instructional approaches measured by both formal and informal assessments throughout the year. Students who need assistance receive the benefits of available resources to reach their individual potential in all curricular areas.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

This inspection determines the school facility's good repair status using ratings of good condition, fair condition or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair or poor. At the time of this school facility inspection the school received a good rating in the majority of systems. A fair rating in the areas of restrooms and structural was identified. The school has already begun allocating resources to improve the rating.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

North Cow Creek School is proud to have a high level of parent involvement in its various programs. There are formal opportunities for all parents to visit classrooms on Back-to-School Night and during open house, as well as during parent-teacher conferences. Parents of students in grades 4-8 have online access to student grades through the Aeries portal and are encouraged to consult with teachers by phone, email or in person. Parents are a part of the Student Study Teams convened to strategize on ways to improve student performance. Additionally, a variety of other volunteer opportunities for parental involvement exist, including but not limited to assisting in classrooms, acting as classroom art parents, chaperoning field trips, and participating with the Education Foundation.

Parents are involved in shaping school policy through various committees and at school board meetings. North Cow Creek School also has a very involved Education Foundation, and other parent volunteers help with extracurricular programs such as skiing, fundraising, field trips, career day exposure, and classroom and school-wide events.

2021-22 Chronic Absenteeism by Student Group

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

North Cow Creek School has a school safety plan is reviewed by staff and approved by the Board of Trustees. Regularly scheduled drills are held throughout the school year to make certain all staff and students are familiar with and ready to carry out all emergency procedures, should it be necessary to do so. The school safety plan is reviewed and updated by February of each school year. This plan is available in the school office for review by the community. The North Cow Creek Crisis and Response Plan has been completed in collaboration with the Shasta County sheriff's department. All staff receive annual training on Child Abuse Reporting and safety within the work place. The Safety Plan was last approved on February 15, 2022.

North Cow Creek School administration follows California Education Code, board policies and administrative regulations, and processes are communicated to parents in case of suspension and/or expulsion. All students are assured their due process rights and are only suspended or expelled based upon California Education Code Section 48900, et al.

2021-22 Types of Services Funded

General funds are principally utilized to provide a qualified staff, curriculum, and facility that supports the academic and behavioral growth of all students. In addition to the core curriculum, funds are utilized to provide an athletic program for students in grades 4 - 8, STEM activities for all grade levels, technology resources that enhance the delivery of instruction as well as providing students access to relevant and real-life resources.

Supplemental funds are principally directed towards unduplicated students, including low income, foster and homeless youth, depending on grade level, are monitored, using a research based assessment, in letter naming and sounds, non-sense words, reading fluency, and comprehension, math facts and math. Students identified needing intervention services based on each assessment will be provided with appropriate support to perform at grade level or to make progress toward closing the achievement gap. Schoolwide assessments include curriculum-based assessments, IXL and state assessment data. Additional services are provided through targeted intervention within the Learning Center by a .4FTE intervention teacher, access to the online IXL program for students in grades TK-8, and the SIPPS program. A district curriculum administrator/training works with grade level teachers as we strengthen small group Tier II interventions within the classroom provided by the classroom teacher and paraprofessional assistance. Providing direct intervention services by an intervention teacher insures the most effective level of service to unduplicated students in that students will receive targeted instruction through the learning center and the classroom teacher receives support through collaboration and resources provided by the intervention teacher.

Professional Development

Professional development has focused on the following priorities:

- 1. Effective implementation of the ELA and Math adopted curriculum
- 2. Support in trauma-informed instructional practices and providing equitable access to the curriculum for all students.
- 3. Targeted interventions (ELA and Math) through the Response to Intervention model through small group instruction within the classroom and through the Learning Center.
- 4. A focus on enhancing school culture through team building activities, Steven Covey's "Leader in Me" program and PBIS (Positive Behavior and Intervention Supports).

Professional Development is delivered through school workshops, internal collaboration, conferences, individual support by a district curriculum administrator, online courses, and targeted print resources. Staff are supported in the implementation of key learning through peer support, administrative observation, and participation in county-level workshops.
