Principal's Message

Browns Elementary School is proud of the fact that we have been in existence since 1863. During that time, the school has been the recipient of awards for excellence in education. Our philosophy is that a child must be ready to meet the world, equipped with all the social, educational and emotional skills to facilitate success. We strive to teach our students in a happy, safe but academically challenging atmosphere. Their success in the future can, to some degree, be Browns Elementary School's success as well.

We are fortunate to have the support of our community, our parents, our board of trustees and our students. Our Parents' Club is outstanding. It has been responsible for many events, assemblies, field trips and a playground for all students. Our students receive instruction in the core curriculum, in addition to honor roll trips, carnivals, annual track meet and school-wide events.

The pride that we all have in our small school is enormous. We feel that there is no better place for an elementary-level student to be.

Mission Statement

Browns Elementary School staff, community and students work together to encourage enthusiasm for learning, integrity and responsibility. The school's mission is to create a safe environment that is instrumental both to learning and to fostering a child's ability to recognize and accept responsibility. This is accomplished by expecting and promoting good citizenship, physical fitness, regular attendance and high academic standards. Students will grow into adults who will productively participate in a democratic society.

Education is a process that involves all aspects of a student's life. Parents share responsibility with the school. Parents play important roles at Browns Elementary by participating in the School Site Council, Parent's Club and a variety of annual events and by regularly volunteering their services in the classrooms. In order to be successful in teaching children, it is important that parents and teachers work together to give the best education possible.

Vision Statement

Browns Elementary School District strives to build a strong academic foundation for all students.

Parental Involvement

Our school is fortunate to have an active Parents' Club and an extended-day program. Our School Site Council (SSC) meets four times a year. Parents are welcome to attend our assemblies, plays and drama performances, trimester awards assemblies, student-council events, and sports events and tournaments. We encourage and welcome parental involvement in classes as well as extracurricular activities.

For more information on how to become involved, please contact the school at (530) 633-2523.

School Safety

The school safety plan addresses the response to earthquake, fire and intruders. Drills for fire are conducted each month, and drills for earthquake and intruders are conducted three times annually. Also, visitors must sign in, the staff has been trained in first aid, and the school enforces a zero-tolerance policy. The school board and the School Site Council (SSC) have approved a school safety plan that outlines safety procedures as well as who is responsible for daily activities and emergency actions. The school safety plan will be reviewed and updated during the current year. The school safety plan was last reviewed, updated, discussed with the school faculty and was board approved in August 2023.

School Accountability Report Card

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

"The pride that we all have in our small school is enormous. We feel that there is no better place for an elementary-level student to be."

Enrollment by Student Group

The total enrollment at the school was 122 students for the 2022-23 school year. The pie chart displays the percentage of students enrolled in each group.

Class Size Distribution

The bar graph displays the three-year data for average class size, and the table displays the three-year data for the number of classrooms by size. The number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Professional Development

Teachers are encouraged to attend conferences, classes and in-services. Three full days and every Monday afternoon are dedicated to professional development (PD) throughout the year. The professional development action steps as listed in our Local Control and Accountability Plan (LCAP) are:

- Professional development will include strategies for implementation of use of a variety of instructional strategies for English language arts with an emphasis on writing
- Professional development will include use of common assessments and analysis of student work and data to inform academic achievement and instruction
- Professional development will focus on academic vocabulary with an emphasis on teaching strategies.
- Professional development will include implementing the piloted science curriculum and working with the publisher to ensure proper implementation and best teaching practices.

Professional Development Days

2021-22	3 full days and 4 half days
2022-23	3 full days and 9 half days
2023-24	3 full days and 31 partial days (Each Monday students are dismissed at 1:30. Teachers participate in PD each Monday afternoon)

California Physical Fitness Test

Each spring, all students in grades 5, 7 and 9 are required to participate in the California Physical Fitness Test (PFT). The Fitnessgram is the designated PFT for students in California public schools put forth by the State Board of Education. Due to changes to the 2021–22 and 2022–23 PFT administration, only participation results are required for the five fitness areas.

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the Fitnessgram. The table shows the percentage of students participating in each of the five fitness components for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf.

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade 10, 11 or 12).

CAASPP Test Results in Science for All Students

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP—California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8 and once in high school (i.e., grade 10, 11 or 12).

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The “percentage met or exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Textbooks and Instructional Materials

All textbooks are selected from the most recent state-approved lists. They are consistent with state standards and curriculum frameworks as adopted by the State Board of Education.

Teachers review the books in each adoption cycle. They determine the series that would work best with our students. Their selections are presented to the board of trustees for approval.

All students have textbooks and instructional materials to use both in class and to take home for homework. Our English learners also have textbooks and instructional materials for class and home use.

Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Facility Good Repair Status

The table shows the results of the school's most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. This inspection determines the school facility's good repair status using ratings of good condition, fair condition or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair or poor.

"Browns Elementary School is proud of the fact that we have been in existence since 1863."

School Facilities

Browns Elementary School consists of four buildings on one site, the oldest of which was built prior to 1960 and has two classrooms. The main buildings were built in 1979 and contain the school offices, four classrooms, a Resource Specialist Program room, a stage, auditorium and staff room.

The newest building on campus was built in the early 1990s. The building contains four classrooms (grades 5-8), and two storage rooms.

Our maintenance person, Mike, always keeps our campus well maintained. He also takes care of the landscaping. His work is accomplished before school as well as after school every day of the regular workweek.

The safety of our students is a primary concern. We have five aides who assist during recesses and lunchtime breaks. Students become familiar with our school handbook the first week of school and safety rules are reviewed at that time.

We hold monthly fire drills, and once each trimester we have intruder and earthquake drills. Our school resource officer from the Sutter County Sheriff's office frequently visits to check on any safety issues we may have.

We have a before and after-school child-care program. All personnel are cleared by the Department of Justice before being hired. They then become responsible for the well-being of any student remaining after school.

We plan to apply to the Office of Public School Construction for Modernization, New Construction as well as Financial Hardship grants. Work under any one of these programs will be a few years away, due to economic circumstances of the state. We have long-term plans to build a gymnasium and add on a kitchen and at least one more classroom.

Teacher Preparation and Placement

The teacher data displayed in this SARC is from the 2020-21 and the 2021-22 school years. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included. These tables display the number and percent of teacher authorization/assignment as well as the total number and percent of teaching positions at the school, district and state levels. For questions concerning the assignment of teachers outside their subject area of competence or the credential status of teachers, visit the California Commission on Teacher Credentialing website at <https://www.ctc.ca.gov/>.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The data source is the California State Assignment Accountability System (CalSAAS) provided by the Commission on Teacher Credentialing. For information on the CalSAAS, visit the CALPADS web page at <https://www.cde.ca.gov/ds/sp/cl/calpadsupdfdash201.asp>.

For more information on the definitions listed above, refer to the Updated Teacher Equity Definitions web page at <https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp>.

Supplemental/restricted expenditures come from money whose use is controlled by law or by a donor. Money that is designated for specific purposes by the district or governing board is not considered restricted. Basic/unrestricted expenditures are from money whose use, except for general guidelines, is not controlled by law or by a donor.

Data for this year's SARC was provided by the California Department of Education and school and district offices. For additional information on California schools and districts and comparisons of the school to the district, the county and the state, please visit DataQuest at <http://dq.cde.ca.gov/dataquest>. DataQuest is an online resource that provides reports for accountability, test data, enrollment, graduates, dropouts, course enrollments, staffing and data regarding English learners. Per Education Code Section 35256, each school district shall make hard copies of its annually updated report card available, upon request, on or before February 1.

All data accurate as of January 2024.
